

Proposed tree planting to replace tree removed from the DBF area on a one proposed for one removed basis.

Possibility to plant trees to create a visual link between the Riverside Gardens and the Paddock depending on coordination with architect

For station buildings refer to Architect's information

Existing crossing removed. Retaining wall and grass infilled to match surroundings

Proposed path to connect to crossing. Could force removal of tree in this location

Cannon relocated due to Phase 2 highway works

Proposed trees to replace trees removed

New retaining wall or sloped bank along proposed kerb line of the Brook

Planting removed and tree grilles replaced

Brick retaining walls and paths kept as existing

Paddock retained in existing condition

Military Road repaved and made into 'shared space' same material is used through the footway and vehicular area - traffic taxis only.

50mm high kerbs through this area

Area re-graded to tie into new Brook alignment and existing paddock edge

Proposed location for sculpture
