## MedPay FAQ / comments

Question / Comments	Response (where applicable)
TU consultation	
Have the Trade Unions been consulted on MedPay?	Yes. Medway Council have been speaking with them since May 2012 and they were provided with additional information in January 2014 and discussions continue through CCC and EMC (17/4)
TU's are saying lack of consultation by Medway Council as opposed to them just being against PRP	As above
Top of grade issue	
What proportion of staff are at the top of their grade so may not be able to get any financial award even if meet required standard?	10% compared to the 30% before MedPay.
Is this a way of the council seeking to save money by making less people eligible for financial recognition	No
If not eligible for 'excellence' payment as at top of grade what is the incentive to do the extra mile or be motivated?	Agreed to propose that top of grade receive excellence payment
No progression for top of grade so only chance is if you move to a new job	Career progression not always available, a fact in all organisations
Unfair not to reward wider contribution or high achievement because you were kept to the top of one range rather than being up a range	
Not fair not to get an award. Should be a one off payment (not capped to top of grade) for excellence.	Agreed to propose that top of grade receive excellence payment
Need some financial reward otherwise people will leave	
By excluding this group it would affect their pension which are now based on average earnings so limiting future pension	
Everyone should have the opportunity to benefit from the incentive of aspiring for excellence – it's a reward not an increment	Agreed to propose that top of grade receive excellence payment
Excluding top of grade is open to an Equality Act challenge of discrimination on the grounds of age	
Financial reward	
As there is no guarantee of a pot of money at the end of the assessment year is this scheme a way of making a saving for the council?	No

Will a cost of living award change the	
ranges?	
Working without knowing what you're	
working towards is an issue.	
Issue if there's no money at the end of the	
assessment year having worked hard during	
that period (numerous mentions)	
Getting 0% at the end of the assessment	
year will be worse than having no scheme	
If only get say 1% pay award, based on cost	
of living, this is still effectively a pay cut	
If get less than 1% worse off than old	
scheme as would be less than an increment	
and cost of living award	
Not right that cost of living award would only	
be applied to levels one and two as cost of	
living award isn't about performance as it	
affects everyone	
Prefer 0% to losing more colleagues	
Should we even contemplate this scheme if	
there is no money guaranteed	
There should be an open book process so	
staff can see how any % has been	
determined	
If no % then staff won't try the following year	
How share out the pot within a division?	Pot will be centralised so that those who
	deserve recognition and meet the criteria
	get it (if there's a pot)
Needs to be some sort of recognition even if	
not financial	
Need to review this once scheme is	
embedded to see if people are at the top of a	
range due to competence rather than length	
of service as some will be due to historic	
service	
Is this related to opting out of the National	No – that was related to cost of living
Terms and Conditions	award. Could still have done PRP even
	without opt out. Local authorities in 2015
	can no longer have time served increments
Need to have a fixed pay bill rather than a %	Ĭ
as unknown numbers that could achieve the	
standard and amount can't be bottomless	
If divisions make money and can put back in	
to the council that extra money should be	
used to reward staff	
Is there any indication from members re the	No. This is proposed to be set next
%	February.
Suggest a fixed amount across the board	,
rather than a % it would be:	
Tatilor triair a 70 it Would bo.	1

Fair and equitable for a finite pot.     Everyone who excelled would get a fixed amount irrespective of range     It would reduce the pay differential that occur with % increases  The excellent payment should be a flat rate payment  Could the target achievement be rolled over into the next assessment year if there's no financial award available at the end of the assessment year  Will the pot of money determined by members affect cost of living award  Are awards pro rated for part time workers  Are Agenda for Change staff in public health included in this scheme  If everyone achieves excellence will it affect the money available?  PDR process  How will the content of PDR's be dealt with to ensure quality as this is a current issue?  PDR process  Changing / interim manager turnover – how get assessed?  How often should supervision be?  Additional time should be made available for managers to do this  Can't set targets by May/June due to a review  PDR notes should be confidential as personal matters are raised  Long term absence would be demoralising if ou can't achieve or demonstrate competence as not there  Pour into development and training needs  PDR notes should be confidential as personal matters are raised  Long term absence would be demoralising if ou can't achieve or demonstrate competence as not there  If you're working on a project and you need extra skills will there be the opportunity to have training  Need CPD training — is there the funding as been told in the past that there is none left. Need this to be able to retain professional status and therefore the job
