1 GP to 5912 patients

Distributional Analysis in Medway

Capacity Constraints – Churchill Clinic – Limited parking spaces and vehicular access.

Key Questions

Fully understand that the rental situation on Second Avenue and the basis for this item at O&S.

- i) According to NHS England the area warranted additional GP provision and was even subject to planning application for Healthy Living Centre in 2011/12. Where is additional capacity? Basis for this Healthy Living Centre was specifically to address capacity issues; we now have a suggestion to reduce capacity in-situ?
- ii) Waiting times in Boots Clinic are very high. Where are we seeing patients transfer?
- iii) How is NHS England making decisions on clinics; clinical or financial pressures?
- iv) Has NHS England visited Churchill Clinic; it is aware of capacity constraints in terms of parking and accessibility? It is situated near a main road with limited parking.
- v) What is the longer term ambition for Luton Medical Centre. Doctor present is managing another site and is part-time. Clinic facilities are limited.
- vi) Communications – has NHS England communicated with patients at the other clinics to understand feelings on capacity issue and potential for increased waiting times?
- vii) Longer term aspirations – area is seeing new residential development and has a high level of transience with buy-to-lets. We may already be seeing under-registration in the Luton area leading to pressures on A&E services. Is this acknowledged.
