

CABINET

10 JULY 2012

COVERT SURVEILLANCE

Portfolio Holder: Councillor Mike O'Brien, Community Safety and Customer Contact

Report from/Author: Perry Holmes, Monitoring Officer

Summary

The Council has at its disposals a number of means of investigating and prosecuting offences. The vast majority of investigation is covert. In some specific circumstances it may be necessary to undertake covert investigations. The law that covers covert surveillance is changing. This report details the law, the changes and proposes that Cabinet agrees the Policy whilst the Audit Committee takes a role in reviewing the use of covert surveillance

1. Budget and Policy Framework

- 1.1 Approval of the Covert Surveillance Policy and Guidance is a matter for Cabinet whilst it is within the ambit of the Audit Committee to take on a reviewing role for the use of covert surveillance by the Council.

2. Background

- 2.1 The Regulation of Investigatory Powers Act (RIPA) 2000 provided a mechanism for the Council to use covert surveillance in investigations. The Council has used three types of covert approaches. It has used:
- Directed surveillance - where it has turned its attention on an individual and decided to find evidence covertly to assist in a prosecution
 - Covert Human Intelligence Sources – where individuals have been tasked to obtain evidence through building relationships including an element of risk
 - Communications Data – where telephone records have been obtained to assist in prosecutions
- 2.2 RIPA allowed for a system of internal authorisations and provided for external scrutiny through the Office of Surveillance Commissioners. The Council was inspected in 2009 and more recently in April 2012. Following that recent inspection an action plan was produced which included approval of a covert surveillance policy. Attached at Appendix 1 is a draft policy for consideration. In discussion with the Inspector, it was also suggested that Member oversight

of the operation of the policy and the use of covert surveillance could be given by the Audit Committee

- 2.3 The Protection of Freedoms Act 2012 limits the circumstances in which Councils can use covert surveillance and requires judicial approval. The details of how this will work in practice are yet to be clarified as the Act is not yet in force. It is likely to come into force in the autumn of 2012. However what is known is that directed surveillance will only be authorised for offences which carry a maximum of six months or more save as they relate to alcohol and tobacco.

3. Advice and analysis

- 3.1 Members will be briefed to assist them to understand the context for the Policy and also their potential role in overseeing the future use of covert surveillance.
- 3.2 A Diversity Impact Assessment (DIA) screening form has been undertaken and is attached at Appendix 2. It is not necessary to undertake a full assessment on the draft policy.
- 3.3 The Cabinet is being asked to consider and approve the policy - the outcome of the Cabinet meeting will be reported to Audit Committee later the same day.

4. Risk management

- 4.1 There are reputational and legal risks to the Council for not using covert surveillance techniques appropriately.

Risk	Description	Action to avoid or mitigate risk
Reputational	failure to understand the impact of the Protection of Freedom Act 2012 damages relationship with Magistrates Court and Office of Surveillance Commissioners	Training seminar arranged in July 2012 jointly with Magistrates Court to understand impact of changes and develop mechanism for seeking judicial approval
Legal	evidence obtained covertly is ruled inadmissible	training seminar arranged July 2012 to include officers and solicitors from Council

Investigative	There is a risk that restriction of the Council's ability to conduct covert surveillance may adversely effect the ability to prove criminal activity	Ensure that applications for surveillance permissions are robust
---------------	--	--

5. Consultation

- 5.1 The Portfolio Holder, the Chairman of the Audit Committee and the Head of Audit have been consulted.

6. Financial and legal implications

- 6.1 The legal implications are set out in the body of the report.
- 6.2 There are no direct financial consequences arising from the proposed changes to the covert surveillance regime. However successful prosecution of offenders may be reliant upon such surveillance and our ability to recover against the fraudster may be dependant upon such an outcome. There is therefore a risk that monies gained as a consequence of unproven fraud may be lost.

7. Recommendation

- 7.1 The Cabinet is asked:
- a) To agree the Covert Surveillance Policy, as set out in Appendix 1 to the report.
 - b) To note that the Audit Committee will be asked to have oversight of the use of covert surveillance in the Council.

8. Suggested reasons for decision

- 8.1 The Council takes on board the recommendations of the Office of Surveillance Commissioners' Inspector that it is best practice to adopt a policy.

MEDWAY COUNCIL
COVERT SURVEILLANCE POLICY &
GUIDANCE

REGULATION OF INVESTIGATORY POWERS ACT 2000 (RIPA)

DIRECTED SURVEILLANCE AND

COVERT HUMAN INTELLIGENCE SOURCES

POLICY

It is the policy of Medway Council to be open and transparent in the way that it works and delivers its services, including the use of surveillance. Wherever possible, overt (non-secret) investigation techniques should be used. The use of covert surveillance and sources in enforcement will only happen where there is no other practical option.

GUIDANCE

1 Purpose

- 1.1 The purpose of this guidance is to explain the scope of the legislation about covert surveillance and sources, the circumstances where it applies and the authorisation procedures that must be followed.

2 Introduction

- 2.1 RIPA regulates the use of investigatory powers exercised by various bodies, including local authorities, and ensures that they are used in accordance with human rights. This is achieved by requiring certain investigations to be authorised by an appropriate officer before they are carried out.
- 2.2 The investigatory powers which are relevant to a local authority are directed covert surveillance in respect of specific operations or specific investigations and the use of covert human intelligence sources. RIPA makes it clear for which purposes they may be used, to what extent, and who may authorise their use.
- 2.3 Consideration must be given, prior to authorisation, as to whether or not the acquisition of private information is necessary and proportionate, i.e. whether a potential breach of a human right is justified in the interests of the community as a whole, or whether the information could be obtained in other ways.
- 2.4 The procedure set out in this guidance details all steps required to be carried out by officers of the Council, or agents acting on the Council's behalf. In complying with RIPA, Officers must also have full regard to the Codes of Practice on the use of covert surveillance issued by the Home Office (see Appendix 2).

- 2.5 It is important to follow the guidance and procedures because RIPA provides a defence to an accusation that there has been an infringement of a human right. Material obtained through properly authorised covert surveillance is admissible as evidence in criminal proceedings. Evidence could be excluded if the RIPA authorisation process is not followed and a court decides that it was obtained unfairly or unlawfully.

3 Legal Background

- 3.1 Medway Council is required to act in accordance with the provisions of a range of legislation in undertaking its duties under RIPA, including the Human Rights Act 1998 which gives effect in domestic law to one of the terms of the European Convention on Human Rights.
- 3.2 To be fully understood RIPA has to be seen in the wider legal context of human rights. Under Section 6 of the Human Rights Act it is unlawful for the Council to act in a manner that is incompatible with European Convention rights such as the right to respect for a persons private and family life, their home or correspondence. Such interference can be acceptable if it is “in accordance with the law”. RIPA provides such a legal means of interfering with an individual’s privacy providing the necessary considerations take place and the appropriate authorisations are given.
- 3.3 Additional legislative issues include applying the principles of Data Protection and the Council’s Equalities duties.

4 When does RIPA Part II Apply?

- 4.1 The two principal activities that make RIPA Part II applicable to Medway Council are the use of “**Directed (Covert) Surveillance**” and the use of “**Covert Human Intelligence Sources**” (CHIS). The purpose must be to prevent or detect crime or to prevent disorder.
- 4.2 The provisions of RIPA apply when the Council is carrying out covert surveillance in the discharge of one of its core functions, for example trading standards investigations or child protection. There may be some circumstances where the Council considers the use of covert surveillance to prevent or detect crime in its capacity as an employer. . In these circumstances it is still good practice to use the RIPA procedures and further advice should be sought from Legal Services.
- 4.3 The following examples illustrate circumstances when RIPA may and may not apply. Further advice is available from Legal Services.
- 4.3.1 The normal use of CCTV is not usually covert (secret) because members of the public are informed by signs that such equipment is in operation. However authorisation should be sought where it is intended to use CCTV to target a specific individual or group of individuals. Equally a request, for example by police to track particular individuals via CCTV recordings, may require authorisation.

- 4.3.2 RIPA applies to covert surveillance of a person carrying out professional or business affairs as well as of a person in their private family life.
- 4.3.3 When a person carries out a test purchase at a shop, this is potentially directed covert surveillance or CHIS, but it depends on the particular arrangements. Paragraph 253 of the Office of the Surveillance Commissioner's Guidance provides more details (see Appendix 2 of this guidance).
- 4.3.4 An immediate response to events or circumstances where it would not be reasonably practicable for a RIPA authorisation to be sought will not require authorisation. This does not include situations where the need for authorisation is neglected until it is too late to apply for it.
- 4.3.5 'Drive by' surveillance may or may not need an authorisation; it depends on the particular circumstances. It is not acceptable to prescribe a minimum number of passes before an authorisation is required.
- 4.3.6 General observation that forms part of everyday duties, even if it involves use of equipment to reinforce normal sensory perception (e.g. binoculars or a camera) is not likely to be caught by RIPA, provided it's not systematic surveillance of an individual.

5 What are the Different Types of Surveillance?

- 5.1 **Directed (Covert) Surveillance** – specifically focusing attention on an individual for the purposes of an investigation or operation conducted by Medway Council. Directed (Covert) Surveillance is carried out in a manner calculated to ensure that the person subject to the surveillance is unaware of it taking place.
- 5.2 **Covert Human Intelligence Sources** – someone (a Council officer or a member of the public) who provides information to the Council by establishing or maintaining a relationship with a person to obtain information. The relationship is conducted in a manner to ensure that the person subject to the surveillance is unaware of it taking place.

6 RIPA Authorisations

- 6.1 The use of Directed (Covert) Surveillance or CHIS to pursue a particular line of enquiry must be properly authorised. This should ensure the admissibility of the information in evidence, and that there is minimal impact on the privacy of individuals.
- 6.2 Each Department must have in place **Authorising Officers** at appropriate senior levels, who are wherever possible not involved directly in the investigation, and who will be trained to enable them to fulfill their duties under RIPA. A list of Authorising Officers is at Appendix 1 to this guidance.

6.3 Details about the process are contained in the next section, Procedure.

7 The Principles of Necessity and Proportionality

7.1 The main principles that those seeking authority and those considering such authorisations must consider and address are whether the surveillance or source are **necessary** to the particular operation or enquiry and whether the surveillance or sourcing suggested is **proportionate**.

7.1.1 **Necessary** – where the information sought could be found in another means such as walking past and observing an address or asking a question, the use of surveillance will not be “necessary”. Or put another way, can the information be obtained openly? If the answer is yes, then the surveillance is not “necessary”.

7.1.2 **Proportionate** – this entails asking what the least intrusive form of the surveillance is that would result in the information sought being obtained. The method proposed must not be excessive in relation to the seriousness of the matter under investigation.

The Home Office Code of Practice at paragraph 3.6 provides that the following elements of proportionality should be considered:

- balancing the size and scope of the proposed activity against the gravity and extent of the perceived crime or offence;
- explaining how and why the methods to be adopted will cause the least possible intrusion on the subject and others;
- considering whether the activity is an appropriate use of the legislation and a reasonable way, having considered all reasonable alternatives, of obtaining the necessary result;
- evidencing, as far as reasonably practicable, what other methods had been considered and why they were not implemented.

7.2 In considering these principles it is important to take into account the risk of “collateral intrusion”, i.e. intrusion on, or interference with, the privacy of persons other than the subject of the investigation. This is particularly important where there are special sensitivities, for example premises used by lawyers, doctors or priests for any form of medical or professional counseling or therapy. Steps must be taken to avoid unnecessary collateral intrusion and minimise any necessary intrusion into the lives of those not directly connected with the investigation or operation.

8 RIPA Training and Awareness

8.1 Authorising Officers must have received relevant training.

9 Monitoring and Review

- 9.1 The Council's Monitoring Officer is responsible for implementing the activities outlined in this document, providing support to departments seeking to establish compliance and reviewing the implementation of the Policy. The programme of review will include reporting to the Council's Audit Committee.

10 Scrutiny and Tribunal

- 10.1 The Office of the Surveillance Commissioners (OSC) was set up to monitor compliance with RIPA. The OSC has a "duty to keep under review the exercise and performance by the relevant persons of the powers and duties under Part II of RIPA", and the Surveillance Commissioner will from time to time inspect the Council's records and procedures for this purpose.
- 10.2 In order to ensure that investigating authorities are using their powers properly, RIPA established a Tribunal to hear complaints from persons aggrieved by conduct. The Tribunal has power to cancel authorisations and order destruction of information obtained. The Council is under a duty to disclose to the Tribunal all relevant documentation.

PROCEDURE

11 Directed Surveillance

- 11.1 Definition: Section 26(2) of RIPA defines **surveillance** as being directed if it is **covert** but not **intrusive** and is undertaken:

11.1.1 for the purpose of a specific investigation or a specific operation;

11.1.2 in such a manner as is likely to result in the obtaining of **private information** about a person (whether or not one specifically identified for the purposes of the investigation or operation); and

11.1.3 otherwise than by way of an immediate response to events or circumstances the nature of which is such that it would not be reasonably practicable for an authorisation under Part II of

RIPA to be sought for the carrying out of the surveillance.

- 11.1.4 Some of the terms above require further definition:

11.1.4.1 **surveillance** is defined at Section 48(6) of RIPA as monitoring, observing or listening to persons, their movements, conversations, activities or communications;

11.1.4.2 **covert** has a dictionary definition including secret which in this context means unknown by the person

under suspicion;

11.1.4.3 **intrusive surveillance** means involving the presence of an individual at residential premises or in someone's car, or using a surveillance device at residential premises or in someone's car. The Council cannot authorise this type of surveillance under RIPA. The Office of the Surveillance Commissioner's guidance says that gardens and driveways are not included within the definition of "residential premises";

11.1.4.4 **private information** in relation to a person includes any information relating to his/her private or family life.

- 11.2 Authorisation of directed surveillance: the details of which officers can authorise directed surveillance in each Department are set out in Appendix 1.
- 11.3 Application for directed surveillance: the following steps must be followed by officers seeking authorisation for directed surveillance (see the flowchart at Appendix 3).
- 11.3.1 DS Application Form (Part II application for Authority for Directed Surveillance) will be completed by the Investigating Officer and submitted to an Authorising Officer.
- 11.3.2 If the Authorising Officer agrees to authorise the directed surveillance, after considering the requirements of Section 28 of RIPA and the guidance in the relevant RIPA Code of Practice, then he/she will authorise the surveillance activity in writing on the DS Application Form.
- 11.3.3 **Urgent Cases:** in urgent cases authorisation may be given orally (usually by telephone) and the Authorising Officer should record this on the DS Application Form **as soon as is reasonably practicable**. Urgent authorisations should only be considered if delay would be likely to endanger life or jeopardise the operation. A delay by officers in seeking authorisation is not sufficient justification.
- 11.3.4 Duration: all written authorisations will continue until such time as they are formally CANCELLED. The duration of any directed surveillance authorisation is **three months** beginning on the date the authorisation is given. Urgent authorisation will only be given for **72 hours** beginning with the time when the authorisation was granted and will then be formally cancelled.
- 11.3.5 Review: regular reviews must be undertaken using DS Review Form to avoid authorisations running on unnecessarily.
- 11.3.6 Renewal: if required DS Renewal Form will be submitted by the Investigating Officer to apply for an authorisation renewal before the expiry of the original authorisation. The Authorising Officer will consider the renewal application and if he/she is satisfied that the

criteria are still met for the authorisation will renew the authority and endorse the DS Renewal Form.

- 11.3.7 Cancellation: the officer who granted or last renewed the authorisation must cancel it if he/she is satisfied that the directed surveillance no longer meets the criteria for authorisation using the DS Cancellation Form. Authorisation must be for the statutory **three months** period. There should be appropriate reviews at a suitable time if the authorisations are to be short-lived. All authorisations should be cancelled as soon as they are no longer required; this is a statutory requirement. As soon as the decision is taken to cancel, the instruction must be given to those involved to stop all surveillance.
- 11.3.8 Original versions of the above mentioned forms should be sent to the Monitoring Officer, via Legal Services, within five working days.
- 11.3.9 It will be the responsibility of the Monitoring Officer to maintain a central record of all authorisations for directed surveillance.

12 Covert Human Intelligence Sources

- 12.1 Definition: Section 26(8) of RIPA defines a person as being a covert human intelligence source (CHIS) if:
 - 12.1.1 he/she establishes or maintains a personal or other relationship with a person for the covert purpose of facilitating the doing of anything falling within the following two paragraphs;
 - 12.1.2 he/she covertly uses such a relationship to obtain information or to provide access to any information to another person; or
 - 12.1.3 he/she covertly discloses information obtained by the use of such a relationship, or as a consequence of the existence of such a relationship;
 - 12.1.4 a relationship is used covertly if, and only if, it is conducted in a manner calculated to ensure that one party is unaware of its purpose;
- 12.2 Authorisation of CHIS (Section 29): the details of which officers can authorise the use of CHIS in each department are set out in Appendix 1.
- 12.3 Application for CHIS: the following steps must be followed by officers seeking authorisation for the use or conduct of a CHIS (see also flowchart at Appendix 4).
 - 12.3.1 CHIS Application Form (Part II application for authorisation of the use or conduct of CHIS) will be completed by the Investigating Officer and submitted to an Authorising Officer.
 - 12.3.2 If the Authorising Officer agrees to authorise the use or conduct of a covert human intelligence source, after considering the requirements of Section 29 and the guidance in the Code of Practice, then he will authorise the use of the

covert human intelligence source in writing on the CHIS Application Form.

12.3.3 **Urgent Cases:** in urgent cases authorisation may be given orally (usually by telephone) and the Authorising Officer should record this on the CHIS Application Form **as soon as is reasonably practicable**. Urgent authorisations should only be considered if delay would be likely to endanger life or jeopardise the operation. A delay by officers in seeking authorisation is not sufficient justification.

12.3.4 The Authorising Officer must also complete a Source Identity form, ensuring that the Operation Reference Number corresponds with that on the CHIS Application Form.

12.4 Special considerations:

12.4.1 **juvenile sources:** the use of juveniles as covert human intelligence sources is to be authorised by the Chief Executive or his/her deputy (in his/her absence). Consideration must be given to the Requirements of the Regulation of Investigatory Powers (Juveniles) Order 2000 and the Code of Practice;

12.4.2 **vulnerable individuals as sources:** vulnerable individuals, such as the mentally impaired, should only be authorised to act as a source in the most exceptional circumstances and such authorisation will only be given by the Chief Executive or his/her deputy (in his/her absence).

12.4.3 legal advice should be sought in these circumstances.

12.5 Duration: all written authorisations will continue until such time as they are formally cancelled. A CHIS authorisation must be granted for a 12 month period, i.e. if authorised on 04.06.12 at 17:00, it will be valid until 23:59 hrs on 03.06.13. In the case of a juvenile, a CHIS authorisation may only be valid for a period of 1 month beginning on the date the authorisation is given.

12.6 Regular reviews must be undertaken using CHIS Review Form to avoid authorisations running on unnecessarily. Reviews should be as frequently as is considered necessary and practicable, but should not prevent reviews being conducted in response to changing circumstances. Juvenile sources and vulnerable individual sources will be reviewed no later than 28 days after the granting of an authorisation.

12.7 Urgent authorisation will only be given for 72 hours beginning with the time when the authorisation was granted and will then be formally cancelled unless renewed.

12.8 Renewal: the CHIS Renewal Form will be submitted by the Investigating Officer to apply for an authorisation renewal. Before an Authorising Officer renews an authorisation, he/she must be satisfied that a review has been carried out of the use made of the source

during the period authorised, the tasks given to the source and the information obtained from the use or conduct of the source. The key issue to consider is the risk involved in the operation to the source.

12.8.1 If the Authorising Officer is satisfied that the criteria for the initial authorisation continue to be met, he/she may renew the authorisation and endorse the CHIS Renewal Form.

12.9 Cancellation: the officer who granted or last renewed the authorisation must cancel it using the CHIS Cancellation Form if he/she is satisfied that the use or conduct of the source no longer satisfies the criteria or that the arrangements for oversight and management of the source are no longer in place. Authorisation should be for a 12 month period (less a day) with appropriate review dates set and should be cancelled as soon as it is no longer required; this is a statutory requirement. As soon as the decision is taken to cancel; the instruction must be given to the CHIS to stop all surveillance.

12.10 Original versions of the above mentioned forms should be sent to the Monitoring Officer, via Legal Services, within five working days.

12.11 It will be the responsibility of the Monitoring Officer to maintain a central record of all authorisations for CHIS. See paragraph 14 below for more details.

13 Important Further Information in Relation to CHIS

13.1 The Council is responsible for safeguarding the wellbeing of anyone authorised as a CHIS and must adhere to the following:

13.1.1 Management of Sources: every source should have a designated handler which will normally be the Investigating Officer applying for the authorisation.

13.1.2 "Handler" means the person referred to in Section 29(5)(a) of RIPA who will have day to day responsibility for:

13.1.2.1 dealing with the source on our behalf;

13.1.2.2 directing the day to day activities of the source;

13.1.2.3 recording the information supplied by the source;

13.1.2.4 monitoring the source's security and welfare.

13.1.3 Also every source should have a designated controller which would normally be the line manager of the Investigating Officer.

13.1.4 "Controller" means the officer referred to in Section 29(5)(b) of RIPA, responsible for the general oversight of the use of the source.

13.2 **Tasking:** tasking is the assignment given to the source by the handler or controller, asking him/her to obtain information, or to otherwise take an action leading to the obtaining of information.

13.2.1 When unforeseen actions or undertakings occur when a

handler meets a source, or the source meets the target of an investigation, any such actions or undertakings must be recorded as soon as practicable after the event and, if the existing authorisation is insufficient, a new authorisation should be obtained before any further such action is carried out.

13.2.2 Original versions of the above mentioned forms should be sent to the Monitoring Officer within five working days. The Source Identity form is to be retained by the Investigating Officer and all contact with the source must be recorded. This should be sent to the Monitoring Officer only when the authorisation of the source in relation to a specified task ceases. It will be the responsibility of the Monitoring Officer to maintain a register of all authorisations granted for the retaining of covert human intelligence sources.

13.3 **Security and Welfare:** before authorising the use or conduct of a source, the Authorising Officer should ensure that a risk assessment is carried out to determine the risk to the source of any tasking and the likely consequences should the role of the source become known to the target or those involved in the target activity. The ongoing security and welfare of the source, after the end or cancellation of the authorisation, should also be considered at the outset.

13.3.1 The handler is responsible for bringing to the controller's attention any concerns about the personal circumstances of the source, insofar as they might affect:

13.3.1.1 the validity of the risk assessment;

13.3.1.2 the proper conduct of the source operation;

13.3.1.3 the safety and welfare of the source.

13.3.2 Any such concerns must be brought to the attention of the Authorising Officer by the controller and a decision taken on whether or not to allow the authorisation to continue.

13.4 Record keeping:

13.4.1 Records must be maintained in such a way as to preserve the confidentiality of the source and the information provided by that source.

13.4.2 The records should contain the particulars as set out in paragraphs 3.13 and 3.14 of the Code of Practice "The Use of Covert Human Intelligence Sources" and Statutory Instrument 2000/2725. These should be made and updated by the Investigating Officer and the records or updates must be sent to the Monitoring Officer within five working days.

13.5 **Repeat voluntary suppliers of information:** some people provide information but do not wish to be registered as a CHIS, others repeatedly provide information that has not been sought or where the

Council does not wish to authorise the individual (e.g. because there is evidence of unreliability). However if the Council will potentially use the information there could be a duty of care to that individual, and the onus is on the Council to manage the source properly.

14 Record Keeping and Central Record of Authorisations

- 14.1 In all cases in which authorisation of directed surveillance and the use of a covert human intelligence source is given, the individual department is responsible for ensuring that the original documentation is sent to the Monitoring Officer who will keep it for a period of **at least three years** from the date of authorisation. These records will be available for inspection by the Office of the Surveillance Commissioner.
- 14.2 The Monitoring Officer will arrange for and regularly update a centrally retrievable record of all authorisations for directed surveillance in accordance with the Code of Practice. In all cases the documentation specified by the Code of Practice will be retained.
- 14.3 The Monitoring Officer will also arrange for and regularly update a centrally retrievable record of all authorisations for the use of covert human intelligence sources in accordance with the Code of Practice. In all cases the documentation specified by the Code of Practice will be retained.
- 14.4 The authorising department must ensure that appropriate arrangements are in place for the handling, storage and destruction of material obtained through the use of covert surveillance.

15 Confidential Material

- 15.1 Particular attention is drawn to areas where the subject of surveillance may reasonably expect a high degree of privacy, for example where confidential material is involved. "Confidential Material" has the same meaning as it is given in Sections 98-100 of the Police Act 1997:
- 15.1.1 **matters subject to legal privilege** – this can include a situation where there is litigation taking place involving legal advice and also simply where a solicitor-client relationship exists for the purpose of obtaining advice or assistance in relation to rights and liabilities;
- 15.1.2 **confidential personal information** – this will include physical and mental health information held by healthcare professionals and spiritual counseling information held by Ministers of religion;
- 15.1.3 **confidential journalistic material** – this is information obtained for journalistic purposes subject to an undertaking that it will be held in confidence.
- 15.2 Where any authorisation is likely to result in the acquisition of or knowledge of confidential material, the authorisation can only be considered by the Council's Chief Executive, or in their absence

whoever is their deputy. Urgent oral approval can only be considered where to wait for authorisation would endanger life or jeopardise the operation. Delay caused in seeking authorisation is not justification. Legal advice should be sought where information is considered to be confidential.

15.3 The general principles applying to confidential material acquired under RIPA Part II authorisation are:

15.3.1 those handling material from such operations should be alert to anything which may fall within the definition of confidential material. Where there is doubt as to whether the material is confidential, advice should be sought from the appropriate Authorising Officer before further dissemination takes place;

15.3.2 confidential material should not be retained or copied unless it is necessary for a specified purpose;

15.3.3 confidential material should be disseminated only where an appropriate Authorising Officer is satisfied that it is necessary for a specific purpose;

15.3.4 the retention or dissemination of such information should be accompanied by a clear warning of its confidential nature. It should be safeguarded by taking reasonable steps to ensure that there is no possibility of it becoming available, or its content being known, to any person whose possession of it might prejudice any criminal or civil proceedings related to the information;

15.3.5 confidential material should be destroyed as soon as it is no longer necessary to retain it for a specified purpose;

15.3.6 where confidential personal information or confidential journalistic material has been acquired and retained, the matter should be reported to the Commissioner or Inspector during his next inspection.

16 The product of covert activity

16.1 The Authorising Officer remains responsible for the management or destruction of the product of any covert activity. When canceling any authorisation the Authorising Officer must consider whether to retain all or part of any product and record their decision on the cancellation form.

17 [THE PROTECTIONS OF FREEDOM ACT 2012 – not yet in force]

Background

17.1 Chapter 2 of Part 2 of the Protection of Freedoms Act 2012 (POFA12) amends the Regulation of Investigatory Powers Act 2000 (“RIPA”) so as to require local authorities to obtain judicial approval for the use of any one of the three covert investigatory techniques available to them

under the Act.

RIPA was designed to regulate the use of investigatory powers and to satisfy the requirements of the ECHR on its incorporation into UK law by the [Human Rights Act 1998](#). RIPA regulates the use of a number of covert investigatory techniques, those, which relate to local authorities include:

- the acquisition and disclosure of communications data (such as telephone billing information or subscriber details);
- directed surveillance (covert surveillance of individuals in public places); and
- covert human intelligence sources (“CHIS”) (such as the deployment of undercover officers).

17.2 At present, authorisations for the use of these techniques are granted internally by an authorised officer and are not subject to any independent approval mechanism.

Judicial Approval for obtaining or disclosing communications data

17.3 Chapter 2 of Part 1 of RIPA sets out the specified grounds for authorising the acquisition and disclosure of communications data

Judicial Approval for directed surveillance and covert human intelligent sources

17.4 The introduction of the Protection of Freedoms Act 2012, Part 2 specifies the grounds for which authorisations can be granted for carrying out directed surveillance and for the use of CHIS.

Authorisations requiring judicial approval

17.5 It is anticipated that the use of RIPA to authorise directed surveillance will be confined to cases where the offence under investigation carries a maximum custodial sentence of 6 months or more.

17.6 In relation to Alcohol and tobacco, the new threshold would not apply.

17.7 The threshold will be introduced, in parallel with the Protection of Freedoms Act, through an order made under section 30(3)(b) of RIPA;

17.8 At present there is no further guidance available, and this should be reviewed in October 2012 if not before.

Procedure for Judicial Approval

17.9 The Local Authority will apply to the relevant judicial authority for an order under s.32A. Where an application is made to the relevant judicial authority, it shall be made by an authorised officer who is a relevant person under s28 or 29 RIPA00.]

APPENDIX 1 - Officers with authority to issue authorisations for directed surveillance and CHIS

Role	Department	RIPA Authorised Officer by Job Title
Authorising Officer	RCC	Commercial Services Manager
Authorising Officer	RCC	Environmental Services Manager

APPENDIX 3 – RIPA FLOWCHART 1: AUTHORISING DIRECTED SURVEILLANCE (to be amended in November 2012)

APPENDIX 4 – RIPA FLOWCHART 2: AUTHORISING COVERT HUMAN INTELLIGENCE SOURCES (to be amended in November 2012)

REGULATION OF INVESTIGATORY POWERS ACT 2000

GUIDANCE – PART B

ACQUISITION AND DISCLOSURE OF COMMUNICATIONS DATA

Introduction

1. With effect from 5 January 2004, and in accordance with Chapter II of Part I of the Regulation of Investigatory Powers Act 2000 ('the Act'), public authorities such as Medway Council are given powers to acquire communications data. There are certain safeguards that apply in relation to the acquisition of such data. It has to be demonstrated that it is necessary for the purpose of **preventing or detecting crime or preventing disorder**; and proportionate to what is sought to be achieved by acquiring such data. If collateral intrusion is envisaged it must be demonstrated that the intrusion is justified.
2. There is a Home Office Code of Practice on the acquisition and disclosure of communications data at security.homeoffice.gov.uk/ripa/publication
3. The procedure is similar to that for the authorisation of directed surveillance and CHIS but has extra provisions and processes.
4. The purpose and effect of the procedure is the same i.e. to ensure proper consideration is given to the exercise of the powers under RIPA. The mechanism for obtaining communications data creates a system of safeguards under a detailed regulatory and legal framework. This ensures that the interference with the right of privacy of an individual through the acquisition of communications data is necessary and proportionate in any given case.
5. The Authorising Officer is the same level of officer as in the Directed Surveillance and CHIS procedure but for the purposes of this process is called a 'Designated Person'.

6. What is 'Communications data'?

6.1 Communications data is information relating to the use of a communications service e.g. postal service or telecommunications system. It is defined by Section 21(4) of the Act and falls into three main categories: -

21(4)(a) Traffic data - where a communication was made from, to whom and when

21(4)(b) Service data– use made of service e.g. Itemised telephone records

21(4)(c)) Subscriber data – information held or obtained by operator on person they provide a service to.

6.2 Public Authorities are restricted to subscriber and service use data and only for the purpose of preventing or detecting crime or preventing disorder. Traffic data is not available to Medway Council.

7. Designated person

7.1 A designated person must be at least the level of Assistant Chief Officer, Assistant Head of Service, Service Manager or equivalent.

8. Application forms

8.1 All applications must be made on a standard application form and submitted to the SPOC (single point of contact). The SPOC will ensure that the application meets the required criteria and then pass to the Designated Person for authorisation if appropriate.

9. Authorisations

9.1 Authorisations can only apply to conduct to which Chapter II of Part I of the Act applies

9.2 In order to comply with the Code of Practice, a Designated Person can only authorise the obtaining and disclosure of communications data if:

- i) It is **necessary** for any of the purposes set out in Section 22(2) of the Act. (Medway Council can only authorise for the purpose set out in Section 22(2)(b) which is the purpose of preventing or detecting crime or preventing disorder); and
- ii) It is **proportionate** to what is sought to be achieved by the acquisition of such data (in accordance with Section 22(5) the Act)

9.2 Consideration must also be given to the possibility of collateral intrusion and whether any urgent timescale is justified.

9.3 Once a designated person has decided to grant an authorisation there are two methods by which the information can be sought from the Communications Service Provider: -

1) **By authorisation** of some person in the same relevant public authority as the designated person, whereby the relevant public authority collects the data itself (Section 22(3) the Act). This may be appropriate in the following circumstances:

- The postal or telecommunications operator is not capable of collecting or retrieving the communications data.
- It is believed the investigation may be prejudiced if the postal or telecommunications operator is asked to collect the data itself;
- There is a prior agreement in place between the

relevant public authority and the postal or telecommunications operator as to the appropriate mechanisms for the disclosure of communications data.

2) **By notice** to the holder of the data to be acquired (Section 22(4)) which requires the operator to collect or retrieve the data. Disclosure can only be required to be made to either the designated person or the single point of the contact.

- 9.4 Service providers are under a duty to comply with the notice if it is reasonably practicable to do so (s.22 (6)-(8)) and non compliance can be enforced to do so by civil proceedings.
- 9.5 The postal or telecommunications service providers normally charge for providing this information.
- 9.6 There are standard forms for authorisations and notice.
- 9.7 There are also a number of other administrative forms the SPOC is obliged to complete in certain circumstances, although these will not always involve the requesting officer.

10. Oral authority and grading of requests

10.1 Medway Council is not permitted to authorize requests for communications data orally. Requests to Communications Service Providers are graded; grade 3 is the response level to public authorities, requests are normally dealt with within 10 working days. Grades 1 and 2 are requests by the emergency services where there is an immediate threat to life or an exceptionally urgent operation, which requires data within 48 hours.

11. Single point of contact (SPOC)

- 11.1 Notice and authorisations must be passed through to single point of contact within the Council. The SPOC is a Home Office accredited person who deals with the postal or telecommunications operators on a regular basis and also be in a position to advise a designated person on the appropriateness of an authorisation or notice.
- 11.2 SPOCs should be in position to:
- Where appropriate, assess whether access to communication data is reasonably practical for the postal or telecommunications operator;
 - Advise applicants and designated person on whether communications data falls under section 21 (4)(a), (b) or (c) of the Act;
 - Provide safeguards for authentication;
 - Assess any cost and resource implications to both the public authority and the postal or telecommunications operator.

SPOCs currently having Home Office accreditation are:-

Perry Holmes, Assistant Director Legal & Corporate Services and Angela Drum, Head of Legal Services.

12. Duration

- 12.1 Authorisations and notices are only valid for one month beginning with the date on which the authorisation is granted or the notice given. A shorter period should be specified if possible.

13. Renewal and Cancellation

- 13.1 An authorisation or notice may be renewed at any time during the month it is valid using the same procedure as used in the original application. A renewal takes effect on the date which the authorisation or notice it is renewing expires.
- 31.2 The code requires that all authorisations and notices should be cancelled by the designated person who issued it as soon as it is no longer necessary, or the conduct is no longer proportionate to what is sought to be achieved. The relevant position or telecommunications operator should be informed of the cancellation of a notice.

14. Retention of records

- 14.1 Applications, authorisations and notices must be retained by the SPOC in accordance with the Code of Practice until the Council has been audited by the Commissioner (see paragraph 10).
- 14.2 The Monitoring Officer will maintain a centrally retrievable record of items as set out in the Code of practice.
- 14.3 Applications, authorisations and all other associated documents must also be retained to allow the Tribunal (see paragraph 10) to carry out its functions.
- 14.4 Errors which arise as a consequence of this process are determined to be either reportable errors or recordable errors and should be dealt with as specified in the Code of Practice.
- 14.5 Communications data, and all copies, extracts and summaries of it, must be handled and stored securely and the requirements of the Data Protection Act 1998 must be observed.

15. Oversight and Complaints

- 15.1 The Act establishes an Interception of Communications Commissioner whose remit is to provide independent oversight of the use of the powers contained in Part 1. The Code of Practice requires any person who uses powers conferred by Chapter II to comply with any request made by the Commissioner to provide any information he requires enabling him to discharge his functions. That will usually be in the form of an annual return to the Commissioner.

- 15.2 The Commissioner will also undertake a periodic inspection of all the records held by Medway Council.
- 15.3 The Act also establishes an independent Tribunal to investigate and decide any case within its jurisdiction. Details of the relevant complaints procedure should be available for reference from the following address:-

Draft

Diversity Impact Assessment: Screening Form

Directorate	Name of Function or Policy or Major Service Change		
Business Support Department	Covert Surveillance Policy		
Officer responsible for assessment	Date of assessment	New or existing?	
Perry Holmes, Assistant Director, Legal & Corporate Services	27 June 2012	New	
Defining what is being assessed			
1. Briefly describe the purpose and objectives	The covert surveillance policy sets out the legal framework and authorisations needed for the council to obtain and use evidence covertly		
2. Who is intended to benefit, and in what way?	The policy has been introduced to benefit the Council, employees and service users.		
3. What outcomes are wanted?	Desired outcomes: <ul style="list-style-type: none"> - employees follow the policy to ensure that evidence is admissible; - employees complete authorisations fully and accurately; - maximising the Council's efficacy at prosecuting. 		
4. What factors/forces could contribute/detract from the outcomes?	Contribute <ul style="list-style-type: none"> - Raising awareness to all staff of the policy and what it means; - providing training to relevant staff 	Detract <ul style="list-style-type: none"> - employees not understanding the this policy and therefore failing to follow it; 	
5. Who are the main stakeholders?	The council, employees and service users.		
6. Who implements this and who is responsible?	The Assistant Director, Legal & Corporate Services		

Assessing impact		
7. Are there concerns that there <u>could</u> be a differential impact due to <i>racial groups</i>?		Brief statement of main issue
	NO	
What evidence exists for this?	-	The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact
	-	The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact
8. Are there concerns that there <u>could</u> be a differential impact due to <i>disability</i>?		Brief statement of main issue
	NO	
What evidence exists for this?	-	The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact
	-	The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact
	-	
9. Are there concerns that there <u>could</u> be a differential impact due to <i>gender</i>?		Brief statement of main issue
	NO	
What evidence exists for this?	-	The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact
	-	The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact
	-	
10. Are there concerns there <u>could</u> be a differential impact due to <i>sexual orientation</i>?		Brief statement of main issue
	NO	
What evidence exists for this?	-	The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact
	-	The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact
	-	
11. Are there concerns there <u>could</u> be a have a differential impact due to <i>religion or belief</i>?		Brief statement of main issue
	NO	
What evidence exists for this?	-	The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact

		<ul style="list-style-type: none"> - The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact -
12. Are there concerns there <u>could</u> be a differential impact due to people's age?		Brief statement of main issue
	NO	
What evidence exists for this?		<ul style="list-style-type: none"> - The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact - The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact -
13. Are there concerns that there <u>could</u> be a differential impact due to <i>being transgendered or transsexual</i>?		Brief statement of main issue
	NO	
What evidence exists for this?		<ul style="list-style-type: none"> - The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact - The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact
14. Are there any <i>other</i> groups that would find it difficult to access/make use of the function (e.g. young parents, commuters, people with caring responsibilities or dependants, young carers, or people living in rural areas)?		If yes, which group(s)?
	NO	
What evidence exists for this?		<ul style="list-style-type: none"> - The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact - The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact -

15. Are there concerns there <u>could</u> have a differential impact due to <i>multiple discriminations</i> (e.g. disability <u>and</u> age)?		Brief statement of main issue
	NO	
What evidence exists for this?	<ul style="list-style-type: none"> - The use of covert surveillance was recently presented to Extended Management Team and no concerns were raised about a differential impact - The use of covert surveillance by the Council has been happening for 10 years without any suggestion of adverse impact - 	
Conclusions & recommendation		
16. Could the differential impacts identified in questions 7-15 amount to there being the potential for adverse impact?	YES	N/A
	NO	
17. Can the adverse impact be justified on the grounds of promoting equality of opportunity for one group? Or another reason?	YES	N/A
	NO	
Recommendation to proceed to a full impact assessment?		
NO	This function/ policy/ service change complies with the requirements of the legislation and there is evidence to show this is the case.	
NO, BUT ...	What is required to ensure this complies with the requirements of the legislation? (see DIA Guidance Notes)?	Review by the Monitoring Officer operationally and the Audit Committee strategically should include assessing whether the use of covert surveillance has the potential to have an adverse impact
YES	Give details of key person responsible and target date for carrying out full impact assessment (see DIA Guidance Notes)	N/a

Planning ahead: Reminders for the next review		
Date of next review	On-going	
Areas to check at next review (e.g. new census information, new legislation due)	Check whether the policy is being used and whether employees are aware of the policy and its purpose.	
Is there <i>another</i> group (e.g. new communities) that is relevant and ought to be considered next time?		
Signed (completing officer/service manager)	Date	
Signed (service manager/Assistant Director)	Date
