	LFRMS Objectives & Measures 2015 -			
Appendix 1	Progress			
Theme	Objective	Actions from strategy published in 2014	Progress	Notes
Understand the risks	Work with stakeholders to develop a collective understanding of local flood risk	Establish an internal flood group.	N/A	Specific project groups developed as required rather than a generic flood group.
		Establish an external flood group.		Quartely meetings with Risk Management Authorities. *Environment Agency. *Medway Internal Drainage Boards. *Southern Water. *Medway Highways.
		Provide internal training to teams and individuals who can		Training needs identified - more specific actions included
		contribute towards flood risk management.		within Annual Action Plan for 2015-16.
		Undertake a Surface Water Management Plan. Provide training to the Planning Service on Sustainable Drainage.		Commenced June 2015 One workshop completed in 2015. Ongoing - annual workshops.
	Monitor flood risk	Improved flood incident record collection to record flood events.		Complete.
	monitor node risk	Complete and maintain an Asset Record & Register of structures and features.		Draft Asset Register in place. Ongoing work to populate database with information and create a record which must be available for public inspection.
Prevent inappropriate development	Ensure local planning policy is consistent with wider flood risk management policies and legislation and provide clear advice on how to achieve those policies within Medway.	Undertake a review of current council policies relevant to local flood risk management to ensure consistency with national policy and legislation.	N/A	Local Plan policies not due to be established until 2016 therefore this has been included as a specific action for Annual Action Plan 2015-16.
	Promote the use of SuDs	Establish a SuDs Approval Body within the council in accordance with the Flood and Water Management Act 2010.	N/A	SAB not currently going ahead.
		Develop guidance and standards for the adoption of SuDs within the Medway area.	N/A	SuDs currently not going to be adopted.
		Identify opportunities to retrofit SuDs into existing developments.	1471	Opportunities identified. Additional specific action outlined for Annual Action Plan 2015-16.
	Take account of the cumulative effects of developments and climate change on the risk of flooding throughout Medway.	Work with other Risk Management Authorities via the planning process to achieve common goals to reduce flood risk.		Medway Drainage Boards are now consulted on applications within their district which has drainage implications.
Manage the likelihood of flooding	Ensure development has a positive or nil effect on risk of local flooding to and arising from new development.	Development of processes to enable a risk based review of drainage proposals for planning applications.		New Statutory Consultee role for major developments, commenced April 2015. Processes in place within the Planning Service to support that. Updated action included in 2015-16.
	Consider how future infrastructure improvements (e.g. highways, rail, public realm) could be used to deliver local flood risk reduction/benefits.	Development of processes to enable a review of infrastructure proposals.		Ongoing.
	Use flood risk information to implement a risk - based approach to capital investment decisions and maintenance programmes	Develop the Asset Register Management Database as a tool for informing a risk based approach to capital investment decisions and maintenance programmes.		Draft in place.
Help people to manage their own risk	Share flood risk information with Risk Management Authorities and the public.	Web development to improve accessibility to flood risk information.		Pages added to website. Ongoing maintenance.
		Consultation and engagement with the public.		Ongoing enquiries and updates via web pages.
	Increase public awareness with respect to flood risk and responsibility for flood risk management.	Engage with local communities regarding responsibilities for flood risk management (particularly Land Drainage Consenting).		Engagement with Hoo Parish Council and residents on flood risk and land drainage issues during 2014 and 2015. Ongoing.
	Use information on local flood risk as a tool for flood prediction and warning.	Maintain / improve local flood risk mapping using outputs from SWMP.	N/A	Awaiting actions from the SWMP.

Understand the risks Monitor Ensure I with wid and legi how to a Medway development Promote	vith stakeholders to develop a ive understanding of local flood risk or flood risk	Action 2015-16 Maintain partnership with established external stakeholder group. Complete Surface Water Management Plan. Complete and maintain an Asset Record & Register of structures and features. Undertake a condition survey of Council owned structures and features. Use the results of the condition survey to identify assets that require maintenance/capital works.	Timescales Quartely meetings with Risk Management Authorities. •Environment Agency. •Medway Internal Drainage Boards. •Southern Water. •Medway Highways. Due to be completed by January 2015. Jan - Apr 2016 Jan - Apr 2016 Apr - Jun 2016

		Implement a telemetry system to the Hoo Stream at Vicarage Lane, to assist Highways with asset	

Appendix 3	Coastal Action Plan 2015-2016
Action	Timescales
Undertake a scoping analysis for the completion of a	
Supplementry Planning Document to support the forthcoming	
Local Plan.	Jan - Apr 2016
Develop and maintain a record of flood gates throughout the	
Medway area including information regarding condition.	Jan - Apr 2016
Develop and maintain a record of council owned flood and	
coastal defences including information regarding condition.	Jan - Apr 2016
coastal defences including information regarding condition.	Jan - Apr 2016
Deliver the Watermill Wharf Flood Defence Improvements	
Project.	Nov-16
Work with the Rochester Bridge Trust to identify potential	
solutions to reduce flood risk to bridge infrastructure.	Sept - Dec 15
Provide training to Emergency Planning and Duty Engineers on	Joept - Dec 13
coastal flood risk response.	
Other	
Work with Stakeholders to set up a new Internal Drainage Board	
for the East of Gravesend Internal Drainage District	by Apr 16
