1.1.2 Programme. Replacing Medway's street lights

Title

1.2 Outcome. Medway on the Map

Title

1.2.1 Programme. Medway, a great place to work, live, learn and visit

Title

# 2 Priority. Maximising regeneration and economic growth

Title

2.1 Outcome. A strong diversified economy

#### 2.1.1 Programme. Business Investment

| Code  | Short Name   | Success | 2016/1<br>7 | Q3<br>2017/1<br>8 | Q4 2017 | 7/18   |        |               | Long Short Value Target | Latest Note<br>Date | Latest Note |             |   |
|-------|--|---------|-------------|-------------------|---------|--------|--------|---------------|-------------------------|---------------------|-------------|-------------|---|
|       |  |         | Value       | Value             | Value   | Target | Status | Long<br>Trend | Short<br>Trend          | Value               | Target      |             |   |
| ECD1  | % of units let in<br>Council owned<br>business units               | •       | N/A         | 90%               | 91%     | 90%    |        |               |                         | 91%                 | 90%         | 10-Apr-2018 | Council owned business units included in this measure are Hopewell Drive, Pier Road, Innovation Studios Strood and Innovation Centre Medway (ICM) totalling 128 units for Q4 or 43,160.74 sqft. Units across the sites vary in size from approx. 120sqft to 1500 sqft.  At the end of Q4 Innovation Studios Strood is full and there are 11 vacant units at the other 3 Council owned sites or 1,794 sqft (166.7 sqm). To put this in context, a double garage is approximately 300sqft. Of the 11 vacant units 4 are currently under offer.  |
| ECD13 | % of square footage<br>let at Innovation<br>Centre Medway<br>(ICM) | •       | 95%         | 95%               | 97%     | 90%    |        |               |                         | 97%                 | 90%         | 10-Apr-2018 | The ICM has a total space to let of 17,859.34 sq ft. The empty units vary as the sites are incubators there is always a "churn" of tenants coming and going, and at ICM moving within the building. The vacant square footage at the end of Q4 was 579 sq ft (53.8 sqm) or 7 small units.  There are no specific trends in the nature of the vacant units at the ICM, and the Council have historically been able to adapt to need e.g. the recent conversion of one large unit to three small ones, allowed us to respond to business demand, and minimise periods between rentals.  During Q4, six new tenants have moved in and one has vacated. |

2.2 Outcome. Residents with jobs and skills

Title

## 2.2.1 Programme. Jobs, skills and employability

| Code                 | Short Name  | Success                        | 2016/1<br>7 | Q3<br>2017/1<br>8 | Q4 2017 |        |        |               | 2017/18        |       | Latest Note<br>Date | Latest Note |  |

|                      |   |                                | Value       | Value             | Value   | Target | Status | Long<br>Trend | Short<br>Trend | Value | Target              |             |  |
| NI<br>117(16-<br>17) | The percentage of 16-17 year olds who are not in education, employment or training (NEET) | $oldsymbol{oldsymbol{\Theta}}$ |             | 5.40%             | 3.20%   | 6.00%  |        |               |                | 5.40% | 6.00%               | 18-Apr-2018 | At the end of Q4 there were 224 16 and 17 year olds recorded as NEET. This is 3.2%, lower than the 3.9% for the same period last year. This represents a decrease of about 50 young people. There are 5 LAC young people who are NEET and only 8 of the NEETs have EHC plans, a 25% reduction on the last quarter. 6 of the NEET 16 and 17 year old are known to YOT, a 14% reduction on last quarter. There has also been a reduction in the number of NEET young people recorded in the troubled families programme, from 121 in Q3 to 81 in Q4. This represents a 33% reduction. Work is underway with education partners, including Mid Kent College, to maximise the effectiveness, consistency and use of data, so as to maximise support and opportunities for young people.  The rate of young people whose activity is unknown is high, at 19.8%. This will reduce now that the Youth Services team have appointed to the 'Tracker' positions. Medway Youth Services have been working closely with colleagues in Kent Youth Services, reduce duplication and maximise efficiencies. These will lead to |

New investments during the year included Wincanton locating at Kingsnorth London Commercial Park creating 60 jobs and Pacadar at Thamesport creating 40 - both companies anticipate further jobs in 2018/19. New retail investments were strong during the year creating 213 new jobs including Marks & Spencer food and B&M in Strood and Aldi & McDonalds in Gillingham.   |
| MAE 2  | % Retention rate   | •       | 94.38<br>%<br>2015/1<br>6 | 97.6%<br>Q1 of<br>academ<br>ic year<br>2017/1<br>8 | 95.9%<br>Q2 of<br>academ<br>ic year<br>2017/1<br>8 | 94%<br>Q2 of<br>academ<br>ic year<br>2017/1<br>8 | Q2 of<br>academ<br>ic year<br>2017/1<br>8 | Q2 of academ ic year 2017/1 8 | Q2 of<br>academ<br>ic year<br>2017/1<br>8 | N/A     | 94%    | 06-Apr-2018         | This PI is based on academic year rather than financial year.  Data as at 1 February 2018 for Q2 of Academic year (November 2017 – January 2018). Data extracted from AQUA MIS software using Crystal report.  Retention measures the number of learners who start a course with MAE and, at the end of the course/academic year, have completed their learning.  Retention continues to meet the challenging target of 94% and this demonstrates that MAE's courses meet the aspirational, social and well-being needs of our learners.  The overall retention rate also reflects the rigorous monitoring of attendance by tutors and curriculum staff, and improved rigour in the Initial Assessment process (ensuring learners are placed on correct course for them). Medway Adult Education's approach to improving performance is one of continuous improvement through a range of quality measures including monthly quality |

The service maintains robust legal thresholds to keep the number of households that need assistance to a minimum. The service is now operating a placement review panel that scrutinises all placements in to temporary accommodation as well as disseminating learning points and counteractive instruction to operational staff. There has also been a review of the visiting programme for temporary accommodation to ensure that high risk clients are visited within a week of placement to ensure |
| HC3  | No. of households<br>with dependent<br>children in B&B who<br>have resided there<br>for 6+ weeks at the<br>end of the quarter | $\bigcirc$ | 0           | 0                 | 0           | 0                     |        |                       | -                     | 0       | 0      | 09-Apr-<br>2018     | A snapshot at the end of Q4 identifies that no families were in bed and breakfast accommodation. Additionally throughout Q4 no families were placed into bed and breakfast for more than 6 weeks. This is also the case for 2017/18 as a whole.  Work is continuously underway to ensure that the use of bed and breakfast is kept to a minimum. This has been done by seeking more suitable temporary accommodation for households and using HRA properties as temporary accommodation.   |
| HC4  | Number of private   |            | 571         | N/A               | 765         | 600                   |        |                       | <b>^</b>              | 765     | 600    | 00 Ann              | The Service has also reviewed its procedures to ensure that all cases with children or pregnancy are moved on from bed and breakfast within appropriate timescales.  In Q4 2017/18, 172 private sector households were   |
|      | sector properties<br>improved as a result<br>of the Council's<br>intervention   | •          | 5. 1        |                   | 2017/1<br>8 | 2017/1<br>8<br>annual |        | 2017/1<br>8<br>annual | 2017/1<br>8<br>annual | . 00    |        | 09-Apr-<br>2018     | assisted in having their properties improved via Council intervention. Performance has reduced from Q3 (281) this is mainly due to staffing issues and an increased focussed on larger single property projects. Overall   |

|      |            |         | Value       | Value             | Value   | Target | Status | Long<br>Trend | Short<br>Trend | Value   | Target |                     |   |
|      |            |         |             |                   |         |        |        |               |                |         |        |                     | Housebuilding rates are still recovering from difficult market conditions in recent years. There are signs of growing confidence in development in Medway, such as progress seen in large regeneration schemes such as Rochester Riverside and Kitchener Barracks. There are also over 800 homes known to be under construction. However, rates of development are below the council's adopted housing target of 1000 homes a year. The development industry is also delivering significantly fewer new homes than the 1,281 dwellings per annum identified in the Strategic Housing Market Assessment as Medway's objectively assessed need for housing. The introduction of the proposed Department for Communities and Local Government (DCLG)standard method for calculating housing need would lift the annual figure to 1665 homes. It is questionable if this scale of housing could be delivered by the development industry. |

### 2.5 Outcome. Getting around Medway

Title

### 2.5.1 Programme. Tackle congestion hotspots by transport and public realm improvements

| Code          | Short Name   | Success | 2016/1<br>7             | Q3<br>2017/1<br>8   | Q4 2017             | 7/18      |        |               |                | 2017/18 |           | Latest Note<br>Date | Latest Note   |
|---------------|--|---------|-------------------------|---------------------|---------------------|-----------|--------|---------------|----------------|---------|-----------|---------------------|---|

| NI 167<br>New | Average journey<br>time along 5 routes<br>across Medway<br>(mins per mile) |         | 3.45<br>15/16<br>annual | 3.87<br>Q2<br>16/17 | 4.09<br>Q3<br>16/17 | 4.00 mins |        |               |                | N/A     | 4.00 mins | 04-Apr-<br>2018     | In November 2017, a software update was issued for Basemap (travel analysis software) which improved the route measuring tool. Officers are in the process of examining Basemap to test changes to the software. Basemap still utilises Trafficmaster Data to provide its analysis so remains tied to DfT issuing the data before updates can be extracted from it. In December 2017, the consultant to update the Aimsum traffic model was able to utilise DfT issued Trafficmaster Data to calculate missing NI 167 data up December 2016. The necessary Pls were updated accordingly. The consultant undertook this piece of work for no additional cost.  In March 2018 DfT stated that the next tranche of Trafficmaster Data should be released in April 2018. DfT did not state what time period this would cover but it is anticipated that it will cover up to December 2017. Once this data is released officers will be able to update NI 167 for the new time period. |

# 3 Priority. Supporting Medway's people to realise their potential

Title

3.1 Outcome. Healthy and active communities

Title

#### 3.1.1 Programme. Improving everyone's health and reducing inequalities

| Code | Short Name  | Success<br>is | 2016/1<br>7 | Q3<br>2017/1<br>8 | Q4 2017 | 7/18   |        |               |                | 2017/18    |        | Latest Note<br>Date | Latest Note   |

| CSC0004 | Number of LAC per<br>10,000 children  | $lue{lue}$   | 61.5        | 64.8              | 64.1    | 67.0   |        |               | •              | 64.1    | 67.0   | 18-Apr-2018         | Following a small rise in quarter 3 there has been a marginal drop in quarter 4. The rate of LAC per 10,000 population is below the target of 67 and there has been a net drop in the number of looked after children, in the last 3 months, to 408. Medway is above the most recent published national figure of 62% but above the latest average rate of 51% in the South East.  |
| CSC0006 | Number of CP per<br>10,000 children   | $lue{egin{array}{cccccccccccccccccccccccccccccccccccc$ | 49.3        | 54.2              | 53.8    | 65.3   |        | •             | •              | 53.8    | 65.3   | 18-Apr-2018         | The rate of CP per 10,000 population remains below target and the small rise in quarter 3 has reversed of quarter 4. 53.8 per 10,000 population relates to 343 children, a small reduction on last quarter. Although Medway has a higher rate than the latest national figure (43.3) and the South east figure (41.3) the rate in Medway is between the average rate of 41.8 in the South East of England and the average rate of 56 when the level of deprivation in Medway (IDACI index) is factored in. |
| N23     | The percentage of children social care substantive posts not filled by permanent social workers | $oldsymbol{igorphi}$                                   | 42.87<br>%  | 36%               | 37%     | 28%    |        | •             | •              | 37%     | 28%    | 18-Apr-2018         | Vacancy information relates to January 2018 and will be updated when made available. There has been a 1percentage point rise on the rate of 36% in December. Medway remains above the national (17%) and southeast (16.8%) vacancy rates.  |

#### 3.2.2 Programme. The best start in life

| Code              | Short Name   | Success<br>is | 2016/1<br>7                         | Q3<br>2017/1<br>8                       | Q4 2017                             | 7/18                       |                               |                               |                               | 2017/18 |        | Latest Note<br>Date | Latest Note   |
|-------------------|--|---------------|-------------------------------------|---|-------------------------------------|----------------------------|-------------------------------|-------------------------------|-------------------------------|---------|--------|---------------------|---|
|                   |  |               | Value                               | Value                                   | Value                               | Target                     | Status                        | Long<br>Trend                 | Short<br>Trend                | Value   | Target |                     |   |
| CASEIEY<br>FS Gap | Percentage<br>achievement gap at<br>Early Years<br>Foundation Stage<br>Profile between the<br>lowest attaining 20<br>% of children and<br>the mean |               | 29.7%<br>15/16<br>academ<br>ic year | Not<br>measu<br>red for<br>Quarte<br>rs | 28.2%<br>16/17<br>academ<br>ic year | 29.5<br>%                  | 16/17<br>acade<br>mic<br>year | 16/17<br>acade<br>mic<br>year | 16/17<br>acade<br>mic<br>year | N/A     |        | 09-Jan-<br>2018     | This result is for the 2016-17 academic year. Medway has continued to make good progress in this measure and has surpassed the target.  Nationally the gap is 31.7% having risen from 31.4% in 2016, this is a 1% increase.  Medway has reduced the attainment gap between the lowest 20% and the mean by 5% on 2016.  This means that, as the attainment of the EYFS cohort is improving, we can say that the gap is narrowing due to an improvement in the attainment of the lower 20% rather than a drop in the mean score.  |
| PH16              | Smoking at time of delivery  |               | 17.08 %                             | %<br>Q2                                 | 16.35<br>%<br>Q3<br>2017/1<br>8     | 17.5%<br>Q3<br>2017/1<br>8 | Q3<br>2017/1<br>8             | Q3<br>2017/1<br>8             | Q3<br>2017/1<br>8             | N/A     | 17.5%  | 03-Apr-2018         | The percentage of pregnant women smoking at time delivery continues to improve and has reduced steadily from 19% in Q1 to 16.4% in Q3. This is as a result of joint working between Medway Foundation Trust (MFT) and Public Health.  Maternity care professionals continue to refer pregnant smokers to the Stop Smoking Service albeit the volume of referrals of pregnant smokers has declined this year when compared to 2017/18.  The specialist Risk Perception intervention at MFT has been paused. Approximately 20 – 30% of eligible smokers were being referred to Risk Perception.  Medway Stop Smoking Service is now working in partnership with the Children & Family Wellbeing hubs and the community midwives with a view to increasing the volume of women being offered advice on smoking cessation and accessing stop smoking interventions. |

3.3 Outcome. Older and disabled people living independently in their homes

Title

### 3.3.1 Programme. Improve support for vulnerable adults by working with partners and communities

| Code            | Short Name   | Success | 2016/1<br>7 | Q3<br>2017/1<br>8 | Q4 2017 | 7/18   |        |               |                | 2017/18 |        | Latest Note<br>Date | Latest Note   |
|-----------------|--|---------|-------------|-------------------|---------|--------|--------|---------------|----------------|---------|--------|---------------------|---|
|                 |  |         | Value       | Value             | Value   | Target | Status | Long<br>Trend | Short<br>Trend | Value   | Target |                     |   |
| ASCGBT<br>001   | % of Long term packages that are placements  | $\odot$ | N/A         | 31.3%             | 31.4%   | 28%    |        |               | •              | 31.4%   | 28%    | 17-Apr-2018         | The proportion of open packages that are placements has, essentially, remained stable between Q3 and Q4. Over the course of the year there has been a 1.6 percentage point reduction in the ratio. At the end of March 2018 there were 821 adults in residential and nursing care a number that has peaked at 870 in the year (October). At the start of the year there were 853 adults in placements, so this number has reduced by 32 over the year (4%). The cohort of adults receiving long term care stands at 2614 and has remained fairly consistent throughout the year, having peaked at 2706 in October. The strategic objective of helping people to be independent in their own homes for longer is driving work to reduce the numbers in residential and nursing care but may see more packages of community based care being used in order to achieve this. |
| ASCOF<br>1C(2i) | Percentage of<br>clients receiving a<br>direct payment for<br>their social care<br>service | •       | 27.6%       | 28.1%             | 28.8%   | 32%    |        | •             | •              | 28.1%   | 30%    | 17-Apr-<br>2018     | The number of clients with an ongoing service, at the end of the year, who have a Direct Payment has remained steady at about 515. A small drop in the denominator cohort (those receiving a long term community service) means that the proportion of Direct payments has risen to almost 29%. This is, however, below the 32% target. Work continues to shape the market so as to create a deeper pool of Personal Assistants that clients can employ via a direct payment. This includes, employer support training to boost   |

| Code            | Short Name   | Success    | 2016/1<br>7 | Q3<br>2017/1<br>8        | Q4 2017                    | 7/18   |                   |                   |                   | 2017/18 |        | Latest Note<br>Date | Latest Note   |
|-----------------|--|------------|-------------|--------------------------|----------------------------|--------|-------------------|-------------------|-------------------|---------|--------|---------------------|---|
|                 |  |            | Value       | Value                    | Value                      | Target | Status            | Long<br>Trend     | Short<br>Trend    | Value   | Target |                     |   |
|                 |  |            |             |                          |                            |        |                   |                   |                   |         |        |                     | confidence and awareness well as the introduction of a Direct Payments model for carers breaks. The project to launch pre paid cards continues and is working towards a launch date in mid 2018-19.   |
| ASCOF<br>1G (n) | % of adults with<br>learning difficulties<br>in settled<br>accommodation                       | •          | N/A         | 54.9%                    | 67.5%                      | 75%    |                   |                   |                   | 41.5%   | 75%    | 18-Apr-<br>2018     | This measure is not hitting target and over the last quarter performance has dropped. This is related to a decline in the number of reviews taking place (17% fewer in 2017-18 than in 2016-17) rather than a product of clients with learning disabilities not being safe and in accommodation. Only clients with a review in the last 12 months are counted in the nominator. The reintroduction of a dedicated review team has the potential to raise the performance of this measure.                                   |
| ASCOF<br>1H     | Proportion of adults in contact with secondary mental health services in settled accommodation | •          | N/A         | 60%<br>Q2<br>2017/1<br>8 | 64.0%<br>Q3<br>2017/1<br>8 | 70%    | Q3<br>2017/1<br>8 | Q3<br>2017/1<br>8 | Q3<br>2017/1<br>8 | N/A     | 70.0%  | 17-Apr-<br>2018     | Data is produced by the DoH in arrears. Current data is for December 2017. There has been a 4 percentage point increase over the quarter 2 return. The Q3 national rate is 61%, so although the stretching 70% target is being missed the 9 month trend is positive and in excess of national performance.  |
| ASCOF<br>2A(1)  | Permanent<br>admissions to care<br>homes per 100,000<br>pop – 18-64                            | •          | 9.3         | 0.6                      | 1.8                        | 2.75   |                   |                   | •                 | 10.5    | 11     | 17-Apr-<br>2018     | The target for this measure is 11 admissions per 100k population. This equates to a total of 19 admissions in the year. In quarter 4 there have been less than 5 admissions bringing the full year total to 18. As such the target has been achieved; however this may alter if any admissions are added to the record at a later date. A rate of 10.4 is comfortably below the latest national rate (2016-17) of 12.8. It also represents a reduction on the Medway 2016-17 result of 11.7 admissions per 100k population. |
| ASCOF<br>2A(2)  | Permanent<br>admissions to care<br>homes, per 100,000  | lacksquare | 525.7       | 98.7                     | 119.4                      | 150    |                   |                   | 1                 | 555.5   | 600    | 17-Apr-<br>2018     | The target for this measure is 600 admissions per 100k population. This equates to 261 individuals. In quarter 4 there have been 55 admissions. As data has been  |

| Code          | Short Name  | Success | 2016/1<br>7 | Q3<br>2017/1<br>8 | Q4 2017 | 7/18   |        |               |                | 2017/18 |        | Latest Note<br>Date | Latest Note  |

These are the latest results available. |

| Code | Short Name                     | Success | 2016/1<br>7                 | Q3<br>2017/1<br>8 | Q4 2017                     | /18                                |        |               |                                    | 2017/18 |        | Latest Note<br>Date | Latest Note   |
|------|--------------------------------|---------|-----------------------------|-------------------|-----------------------------|------------------------------------|--------|---------------|------------------------------------|---------|--------|---------------------|---|
|      |                                |         | Value                       | Value             | Value                       | Target                             | Status | Long<br>Trend | Short<br>Trend                     | Value   | Target |                     |   |
|      | standard in English and Maths. |         | annual<br>academ<br>ic year |                   | annual<br>academ<br>ic year | annu<br>al<br>acade<br>mic<br>year |        |               | annu<br>al<br>acade<br>mic<br>year |         |        |                     | It is important to note that the marking scheme for English and maths GCSE changed in 2016-17. This makes comparisons with previous years indicative only. Medway has missed it's target for this measure (standard pass, grade 9-4) and has also fallen behind the national level, which was 64.2% and the south East result which is 66.5%. This means that Medway is 6.5% behind national attainment and 9.8% behind the South East. Last year, in an indicative comparison with the numbers passing Maths and English at GCSE (under a different marking scheme) Medway was 2% above national. 41.1% of Medway pupils achieved the Grade 9-5 (strong pass) in 2017. This is 4.2% behind national (42.9%) and 10% behind the south east (45.8%). Although Medway has only 1 secondary school under LA control it maintains a role in scrutinising and holding all providers to account vis he Regional Schools Commissioner.  In the headline Progress 8 measure Medway achieved a score of +0.03, this is 0.02 points down on last year but still 0.06 points above the provisional national result of -0.03. Medway pupils archived an average Attainment 8 score of 45.7  This is down 3.7 points or 7.5% on last year. Medway is behind the provisional national result by 0.7 points or 1.5% Where as in 2015-16 Medway was 1 point or 2% behind national.  This shows that although Attainment 8 scores have |

In the same Quarter last year 11 schools were good and 4 outstanding. Significant work is being done with the single maintained school that is below the standard expected. This incudes focus on: Senior leadership capacity, middle leaders – subject by subject, better all round standards of teaching and method and support for inclusion.  Where schools are academies Medway has an obligation to scrutinise and hold providers accountable. We are submitting applications for funding from the Sub-Regional School Improvement Fund to support work with secondary schools at Key Stage 4 with respect to disadvantaged groups (a regional priority) |
| CASEISP<br>EC<br>Ofsted | The percentage of special schools in Medway judged to be good or better | • | 80%                                     | 80%   | 80%   | 80%    | <b>②</b> |               |                | N/A                 | 80%         | 06-Apr-<br>2018 | There have been no new inspections of Special schools this quarter. 3 Schools remain Outstanding, 1 is good and 1 is inadequate.   |
| EDU3(b)                 | The percentage of children who were persistently absent from school     | • | N/A                                     | 6%    | 7%    | 5.5%   |          |               | •              | 11.4%               | 5.5%        | 29-Mar-<br>2018 | Absence figures for the academic year 2016/17 have now been published. The rate of overall absence for All schools has dropped from 4.8% in 2015-16 to 4.7% in 2016-17. This is compared to a national rise from 4.6% to 4.7% in the same period. This has led to Medway rising 33 places to 78th of 152 LAs. Medway primary schools have recorded an overall absence of 4.2%, the same as 2015-16. This is 0.2 percentage points below the national level (4.0%). Medway primary absence ranks at 100th out of all LAs, up from 104th in 2015-16. Medway secondary schools have seen absence rates drop from 5.4% to 5.3% in 2016-17 against a national   |

|      |            |         |             |                   |         |            |        |               |                          |       |        |               | upward movement , where secondary absence has risen from 5.2% to 5.4% As such Medway secondary absence now ranks 63rd, up from 98th, against all LAs. For the same year (2016/17) the level of persistent absence dropped to 11.4% form the 2015-16 level of 11.8%. This is compared to an increasing national level of persistent absence. Nationally the rate rose from 10.5% in 2015-16 to 10.8% in 2016-17. This narrowing of the gap led to Medway rising 24 places to 100th out of all LAs. It should be noted that the full year published return includes all schools unlike our in year (termly) return which is voluntary and sees approximately 80% of school participate.  Persistent absence at the end of term 3 (current academic year) , as measured in our voluntary collection, is at 7% for all schools, down from the Term 2 result of 7.9%. This is an improvement on last year where the term 3 figure (which was more volatile due to fewer schools participating) was 8.1% This year primary persistent absence (term 3) is at 7.9% and secondary at 4.5%. These are both reductions on last year's T3 results where primary PA was at 8.1% and secondary PA at 7.0% The current rate of Looked after children who are PA is 0.03%, down compared to last years comparative result of 0.07% |

| SE KS2      | The percentage of<br>children who the<br>required standard or<br>above in Reading,<br>Writing and<br>Mathematics at KS2 | •       | 49.0%       | N/A               | 58%<br>17/18<br>annual | 53%    | 17/18<br>annu<br>al | 17/18<br>annu<br>al | 17/18<br>annu<br>al | 58.0% | 53.0%  | 10-Jan-<br>2018     | Finalised results have now been published. 58% of Medway Children achieved the required standard or above in the aggregated Reading, Writing and mathematics measure (RWM). This was 4 percentage points (7%) behind the national result of 62% Last year the gap between national attainment and Medway was 6pp (11%).  As such Medway has closed the gap to national by about a third. Medway has climbed 8 places in the LA rankings compared to 2016 and is now ranked 115th.  |
| SE2<br>OEPr | The percentage of primary sector schools in Medway judged to be good or better  | •       | 82.9%       | 84.0%             | 85.0%                  | 85.0%  |                     | •                   | •                   | 85.0% | 85.0%  | 06-Apr-<br>2018     | The proportion of primary schools judged good or better has risen to reach the target. This is due to Maundene schools becoming an academy and dropping out of the countable cohort the actual number judged good or better remains the same as Q3, at 8 outstanding and 53 good. 11 schools are graded below good. 79% of academies are good or better and 93% of LA maintained schools are good or better. The rise in the percentage of LA maintained schools is, again, due to Maundene coming out of the denominator. |
