

Tonbridge and Malling BC Assurance Opinions

	High	There is a sound system of control operating effectively to achieve service/system objectives. Any issues identified are minor in nature and should not prevent system/service objectives being achieved.
	Substantial	The system of control is adequate and controls are generally operating effectively. A few weaknesses in internal control and/or evidence of a level of non-compliance were noted during the audit that may put a system/service objective at risk.
	Adequate	The system of control is sufficiently sound to manage key risks. However, there were weaknesses in internal control and/or evidence of a level of non-compliance with some controls that may put system/service objectives at risk.
	Limited	Adequate controls are not in place to meet all the system/service objectives and/or controls are not being consistently applied. Certain weaknesses require immediate management attention as if unresolved they may result in system/service objectives not being achieved.
	No Assurance	The system of control is inadequate and controls in place are not operating effectively. The system/service is exposed to the risk of abuse, significant error or loss and/or misappropriation. This means we are unable to form a view as to whether objectives will be achieved.
