

APPENDIX B - AMENDED APPLICATION

I am formally changing the original application events/activities to the following only:-

Drive in Films

Films (if restrictions eased)

Markets

Sale of alcohol on/off premise

Hours of 10.00-22.00 Mon-Sun activities ceasing no later than 22.00.

No more than 450 people attending at one time.

Specially in relation to Kent Police:-

1. Alcoholic drinks sold for consumption on the premises to be served in plastic or polycarbonate containers.
2. Alcoholic drinks sold for consumption off the premises to be served in sealed containers. No persons will be permitted to take open alcohol containers from the premises.

The licence holder shall produce an event management plan and risk assessment for all events held at the premises. A copy of the event management plan and risk assessment is to be submitted where necessary to police and licensing authority in writing either by post or electronically to licensing.north.division@kent.police.uk no later than 21 days prior to the event. It must address but is not limited to risks specific to the nature of the proposed event and its potential to undermine the licensing objectives

All activities will be assessed on an event by event basis with full risk assessments and event plans produced by the operator in advance and shared with partners where necessary to ensure the licensing objectives and conditions of this licence are met at all times.

Activities such as drive in movies will be ticket only events sold in advance and produced to gain access. Stewarding and site boundaries will be in place to ensure that activities are safe and secure separating the event from the public. Films shown will be known in advance to ensure that they are suitable for the audience attending and time of day being shown.

Events such as markets will have security/stewards but not tickets sales in advance. A market would be an open event and have controls in place to ensure the safety and security of anyone attending.

There is a cctv system at dockside which has cameras on dockhead road that can be used to 'look and monitor ms8' as required or instructed. I will be supplying an event operating document in advance of each event to EHO and Kent Police as agreed. This document will cover all of the event operations including the movement of people to and from the event , safe dispersal at the end of an event and traffic management for a drive in.

All other activates not covered here can be dropped such as wrestling/boxing , plays etc.

There is a planning application being resubmitted regarding ms8 which will have all elements laid out covering traffic movement, movement of people and sound and light controls.

I hope this is all you require, if not please let me know

Anthony Sutton

Dockside Outlet Centre
