

## APPENDIX E - REPRESENTATIONS RE: AMENDED APPLICATION

**From:** Lee Richardson  
**Sent:** 01 March 2021 13:10  
**To:** Hopson, Lisa  
**Cc:** pitt, jon  
**Subject:** Re: Machine Shop 8 Dock Head Road Chatham Kent.

Hi Lisa.

Thanks for this.

My original objection stands. The license should not be issued until firm assurance from the applicant has addressed the following points, most of which are stated in my original objection.

A license should not be issued if planning permission for the site hasn't been submitted. This will give any future planning permission the right of license without knowledge of the site's structure, layout or intended design. This would affect the residents and local area, including, but not limited to traffic management, staging/lighting position, public amenities entrance/egress of traffic.

1. At the meeting, the Chair asked the applicant 'to explain how (Mr Sutton) would protect the quality of their (residents) life' the question was not answered. [Prevention of public nuisance – Light and Noise Poulton]
2. When does the applicant want to start these activities, as planning permission has now been withdrawn and the site is unprepared?
3. The selling of alcohol on and off the premises – please state where 'off the premises' is intended? As the applicant stated the site would be 'locked down' by 10pm, where's the control and safety monitoring for persons remaining on site, or close to the site in an inebriated or socially active/excited state – causing harm and distress to the local residents. [Prevention of Crime and Disorder] [Public Safety] [Prevention of Public Nuisance – Noise pollution]
4. As planning permission has been withdrawn, where is access and exit to the premises anticipated to take place? The applicant stated Dock Head Road was a private no through road. This road has a 'give way' to traffic at the top of Dock Head Road, any entrance or egress from the venue into Dock Head Road would cause severe traffic congestion to local residents, properties, business owners and public transport. And interfere with any emergency service response.

I therefore propose the license be declined.

Many thanks.

Lee.

Dear Mrs Hopson

Thank you for all the information. I have read the changes in the application and still the things that I found more disturbing is that the cinema and the selling of alcohol remain unchanged. so the markets.

So, I will like to participate in the meeting in 16th of March.

Kind regards

*Stella Maris Canelo*
