KEY | update

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE**RISK OWNER: DIRECTOR OF PEOPLE – CHILDREN AND ADULTS SERVICES****PORTFOLIO: CHILDREN'S SERVICES (LEAD MEMBER) AND EDUCATION AND SCHOOLS****Current Residual Risk Score BII (Likelihood – high. Impact – major)**

Currently Domestic Abuse and Gang culture are led on a Kent and Medway footprint. These are triaged at the Front Door and CSE child exploitation cases discussed at the Missing and Exploitation panel.

The Youth Justice Partnership, chaired by the Director of Public Health, have drafted a strategic plan outlining the period 2020-2023. It has been coproduced with a range of stakeholders, including the Youth Justice Partnership Board (YJPB) members and the Young People's Advisory Group (YPAG). The content and specific actions in the plan have also been informed by a review of national research and evidence of best practice taken from other comparable Youth Justice Partnership Boards around the country.

Inherent Risk Score BII

There are several different factors affecting vulnerable adolescents in Medway. These include Child Sexual Exploitation (CSE), Gang Culture, Offending and Re-offending, and growing up in the care system without proper transition to adulthood.

The council as a Corporate Parent has a responsibility to those within its care, but ultimately a responsibility to ensure that Medway is an environment where adolescents grow up in a safe place free from these adverse situations.

Target Residual Risk Score DIII

Decreasing levels of reoffending.

Reduced prevalence of gangs in Medway.

Decreasing cases of domestic violence and CSE concerning adolescents.

Trigger

- Rising rates of reoffending within 16-18-year-olds.
- Increasing rates of young people entering care in adolescence.
- Lack of preventative services and earlier interventions.

Consequence

- Higher levels of neglect and safeguarding incidents in Medway.
- At risk of joining gang culture.
- At risk of offending and jail.
- Stigma of being a care leaver and effects of lower education levels.

Opportunities and the way forward

- Investment in edge of care / Adolescent service from the sufficiency strategy.
- Capital investment for the Elaine Centre to create an integrated multi-disciplinary offer for adolescents.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

- Reunification / activity residential unit for adolescents from the investment via the sufficiency strategy.
- Attendance at multi-agency Kent and Medway meetings specifically focusing on exploitation / gang culture.
- Funding gained for Salus projects; prevent / protect agenda.
- The creation of the adolescent service and building on the team.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

Mitigating Action: SR09B.10: Ensuring early intervention to address risk and vulnerability factors to build upon strengths preventing young people going from being at risk of offending to becoming established offenders.

Lead Officer: ~~Director of Public Health. Head of Children's Commissioning and Youth Justice~~ Head of Early Help, Youth Offending Team Manager

Desired Outcome: Expected Output

The rate of first-time entrants to the criminal justice system declines.

The rate of No Further Action (NFA) reduces.

Early Help referral increase from the Police (Police complete an Early Help Assessments) and reduction in safeguarding referrals from the Police.

Increase referrals into NELFT and improved access and intervention pathways.

Schools report less fixed term exclusions, and improved attendance and behaviour of those students identified as at greatest likelihood of offending.

Fewer looked after children and care leavers will become involved in the criminal justice system.

Reduction in young people that are Not in Education, Employment or Training (NEET).

Progress update July 2021

The successful applicant referred to in the April update decided not to take up the post. On 3 June 2021 the Child & Adolescent Mental Health Service (CAMHS) / NELFT Mental Health Youth Offending Worker / Adolescent Worker post was successfully recruited to. Work has taken place to make sure that the post provides a service to both the Youth Offending Team (YOT) and the Adolescent Team.

The YOT risk panel continues to be well attended. Attendees include the Police, representatives from the adolescent team, and representatives from the violence reduction unit.

The Youth Justice Partnership Board is undertaking a new Youth Justice Plan. The planned submission date for this plan to the Youth Justice Board is June 2022. A timescale of local governance has been agreed to ensure that adequate time is given to the development of the plan. The main driver behind undertaking this plan is change of directorate for the YOT from Public Health to the Children's directorate.

The aim is for the plan to a reflect greater integration with the children's directorate, and to secure greater partnership involvement in the delivery of the plan.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

Mitigating Action: SR09B.10: Ensuring early intervention to address risk and vulnerability factors to build upon strengths preventing young people going from being at risk of offending to becoming established offenders.

Exploitation / Gangs culture: The YOT continues to refer young people to the Serious Youth Violence project across North Kent. The team is seeking greater alignment to the activities of the Violence Reduction Unit. The local lead attends the YOT's monthly risk meeting. The director of the unit is being invited to be a board member of the Youth Justice Partnership Management Board.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

Mitigating Action: SR09B.11: Prevent and reduce domestic abuse across communities and ensure that when Young People experience abuse, they can access the help and services they need.

Lead Officer: Director of Public Health. Interim Assistant Director Children Social Care Public Health. Interim Assistant Director Children Social Care

Desired Outcome: Expected Output

Lower number of incidents of Domestic Abuse (DA).

Progress update June 2021

Reviewed but no update required this quarter.

Progress update April 2021

At the beginning of the year a meeting was held with the Public Health team and commissioned DA service provider 'Choices' to discuss options as to how / if Choices can support young people open to the adolescent team. A further meeting has been arranged for 6th April 2021 with a view to Choices joining the adolescent team on weekly basis to offer support and guidance to young people.

A social care lead for DA has now been identified and is working with the Public Health DA programme lead to improve consistency of attendance at Multi-Agency Risk Assessment Conference (MARAC) and develop opportunities for training of Social Care staff.

Work is underway to evaluate Op Encompass (a police operation whereby schools are notified of incidents of DA in the home where one of their pupils is affected). Evaluation will look to ensure schools feel enabled to support these pupils effectively.

Choices have now merged with the Kent based organisation called Oasis. Service continues as before and this was a strategic decision by the Trustees following the departure of the Choices Chief Executive Officer (CEO).

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

Mitigating Action: SR09B.12: Protect and prevent young people from becoming involved with gangs; to tackle gang-related harm and youth violence; and to pursue effective enforcement action to deal with those embroiled in gang activities.

Lead Officer: Director of Public Health. Interim Assistant Director Children Social Care

Desired Outcome: Expected Output

Lower number of young people entering the youth justice setting.

Lower number of young people at risk of gang activities.

Progress update June 2021

The adolescent team continues to increase in staffing numbers and develop relationships with a number of teams across Kent Police, the Violence Reduction Unit (VRU), partners including DA, Sexual Health and substance misuse services. The additional staff working with missing children within the adolescent team are enabling a more timely response. The Adolescent team have started to use the space within the Elaine Centre and will begin to seek the views of young people as to how the downstairs space is used. Discussions with partners has continued and virtual relationships are in place to ensure young people access the support needed and whilst plans remain to work towards co-location with some partners discussions are continuing as to how and when.

Our relationship / communication with Kent Police remains consistent, and there is evidence of some good working across Medway. We continue to have challenges when working with Police from other authorities, such as the Metropolitan Police (MET), despite escalation. The YOT continues to support the Serious Youth Violence project, which is aimed at addressing the cohort of young people particularly involved in Gang activity. The project is having an ongoing evaluation of its efficacy, so this will be able to be reported on in future updates.

The YOT has moved into Children's Social Care. We are looking to explore how the YOT being in this division will further enable the team to address re-offending and links to gang activities.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE

Mitigating Action: SR09B.13: Improve access to health, education, accommodation and training for care leavers

Lead Officer: Interim Assistant Director Children Social Care

Desired Outcome: Expected Output

Increase in the percentage of care leavers in Education, Employment or Training (EET).

Increase in the percentage of care leavers living in appropriate accommodation.

Milestones

Increase in the number of care leavers undertaking apprenticeships or employed by the council and partners.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE**Mitigating Action: SR09B.13:** Improve access to health, education, accommodation and training for care leavers

Implement a rolling programme of apprenticeships and employment opportunities for care leavers.

Work with Commissioning and Housing colleagues to source and oversee appropriate accommodation for care leavers to ensure they can live independently if they are ready to do so.

Develop a separate Care Leavers service and review the operational model, considering a 16+ team.

Progress update June 2021

The service now has four teams and therefore four team managers. Four smaller teams of Personal Assistants (PAs) and social workers allows better management oversight and a more personal service to young people. The manager with the lead on participation and engagement started in May 2021 and is starting to make links with Medway colleagues and partner agencies, gathering views of young people and looking to expand on the Local Offer to children in care and care leavers. This includes current conversations with Medequip UK who we are in discussion with about how they may be able to support opportunities for care leavers, through volunteering or apprentice schemes etc. with their service as a result of 16+ Group Manager (GM) attending the Public Health Directorate Day. We have also shared with young people the Climate Response Officer posts being advertised. There is also an offer of an internship role within Regeneration, Culture and Environment (RCE) Directorate to support 3 areas: City of Culture, Child-Friendly Medway and Place.

88 young people are Not in Education, Employment or Training (NEET) currently, with 25 of those due to parenting or disability / illness. A number of young people are currently recorded as NEET while they wait for start dates for jobs or college starts in September. 98 young people are in education, employment or training.

The Education Training Employment (ETE) / Aspirations Officer has been approved and the job description is with HR for approval to then move onto the recruitment stage.

Continued work with the Commissioning team to ensure accommodation is appropriate, safe and stable. 13 young people are in unsuitable accommodation due to being in prison. Five are in temporary accommodation from the council and awaiting permanent housing. The remaining 167 are in suitable accommodation, with the majority (63) in supported accommodations.

The proposal for a Rent Guarantor Scheme has been presented and is awaiting next steps decisions.

The Communications team have supported with an e-newsletter giving information about care leavers and corporate parenting. This will hopefully provide information and offers from services who may be able to offer support.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE
Mitigating Action: SR09B.14: Manage latent demand Covid19
Lead Officer: Assistant Director – Children’s Social Care & Early Help
Desired Outcome: Expected Output As robust response to Covid19, the Council has the capacity and capability to improve and sustain improvement to its services.
Milestones The service has the workforce capacity to meet increased and pent-up demand – short and long term.
Progress update June 2021 Close monitoring of contacts and referrals continues to assess patterns in levels of demand, and we are working with Human Resources (HR) partners to ensure vacant positions are filled. There is regular liaison with schools via the Head Teachers Reference Group and other contact channels. There is continued training of staff in line with the Signs of Safety standards.

STRATEGIC RISK: SR09B: KEEPING VULNERABLE ADOLESCENTS SAFE
Mitigating Action: SR09B.15: Ensure sufficient Workforce Capacity
Lead Officer: Assistant Director – Children’s Social Care & Early Help
Desired Outcome: Expected Output Recruitment and retention of staff. The council has the capacity and capability to improve and sustain improvement to its services.
Milestones Workforce stabilised. Agency staff and turnover of permanent staff reduced.
Progress update June 2021 The programme of development and support for Social Workers has received positive feedback and is starting to be reflected in practice, as referenced in feedback from external visits and visible in regular auditing. We continue to carry vacancies that are affecting caseloads, mainly due to the competitiveness of the market in the current climate and lack of credible candidates’ CVs being received. This could potentially become a critical risk over the coming months. Work is underway alongside our HR partners to find both short-term and longer-term solutions.

STRATEGIC RISK: SR26: NON-DELIVERY OF CHILDREN'S SERVICES IMPROVEMENT**RISK OWNER: DIRECTOR OF PEOPLE – CHILDREN AND ADULTS SERVICES****PORTFOLIO: CHILDREN'S SERVICES (LEAD MEMBER)****Current Residual Risk Score CII (Likelihood – significant. Impact – major)**

The commissioner's first report was been published in December 2019, which recommended a further six months of commissioner intervention pending final decision. A further report from the commissioner to the Secretary of State was made in July 2020 and a final report is expected in December 2020. Ofsted carried out a Monitoring Visit in August 2020 which acknowledged progress against the plan, although improvements were yet to be fully embedded. No children were found to be at risk of harm.

The Children's Services Commissioner's reports of July 2020 and December 2020 concluded that although there is still much to do, progress is being made by the council. The December report recommended that the role of the Commissioner should come to an end; there is no longer any need to consider an Alternative Delivery Model as the council has demonstrated that it now has the capacity and capability to deliver the changes needed, and that an Improvement Adviser should now be appointed.

Gladys Rhodes-White OBE was appointed by the Department for Education (DfE) shortly after.

In May 2021, Ofsted visited Children's Services for a Focused Visit looking at how the council had continued to provide and improve within the Covid19 context. Findings included no child at significant risk of harm, no priority actions and three areas of improvement. The 'relentless focus on improvement' was noted along with a determination to embed change across the service – however, Covid19 new ways of working were also highlighted such as individual risk assessments to ensure the most vulnerable children continued to be visited regularly and face-to-face.

We continue to improve ourselves and ensure positive outcomes for children and young people.

Inherent Risk Score All

We aspire to deliver good and outstanding services that keep children and young people safe and give them the right help, at the right time in their lives. In doing this, we will show strong leadership, we will challenge performance, we will ensure the right level of resources are allocated and used efficiently, and we will build a culture of continuous reflection and improvement. However, during Ofsted's July 2019 inspection of our services, it found that we were not providing these outcomes to a satisfactory level.

Our Children's Services Improvement Action Plan has been developed in response to the formal recommendations and improvement areas highlighted by Ofsted during their 'Inspection of Local Authority Children's Services' (ILAC) which took place from 8 July 2019 to 26 July 2019. The plan was refreshed and updated in July 2020 to reflect the progress made and to set out the priorities for the coming year.

This is a key corporate priority, and we are fully committed to working with our partners to deliver this plan and achieve more positive outcomes for children and young people in Medway.

Target Residual Risk Score DIII

STRATEGIC RISK: SR26: NON-DELIVERY OF CHILDREN'S SERVICES IMPROVEMENT
Improvement is made at pace and is deemed to be sustainable in order that control of the service remains in control of the council.
<p>Trigger Non-delivery of appropriate and rapid enough improvement following the poor Ofsted inspection rating.</p>
<p>Consequence The council loses control of the service. The Commissioner, in cooperation with the DfE, agrees an alternative delivery model and structure such as Children's Services being delivered by a neighbour. Children and young people in Medway get a poor service from the council and DfE involvement is reconsidered.</p>
<p>Opportunities and the way forward Progressing into the next stage of the Improvement Plan and evidencing that outcomes for children and families are improved.</p>

STRATEGIC RISK: SR26: NON-DELIVERY OF CHILDREN'S SERVICES IMPROVEMENT
Mitigating Action: SR26.14: Successful delivery of the Improvement Plan
Lead Officer: Assistant Director – Children's Social Care & Early Help
<p>Desired Outcome: Expected Output The council has improved the service to the level required by the Children's Commissioner, DfE and Ofsted.</p>
<p>Milestones Workforce stabilised, agency staff and turnover of permanent staff reduced. Performance indicators and audits show continuous improvement. Quality of intervention is consistently meeting standards. Partners working together to deliver on shared objectives for Medway's children.</p>
<p>Progress update June 2021 The Children's Improvement Board, which is independently chaired and has a key role in oversight and challenge of the Improvement Plan, has continued to meet monthly and receives reports on progress from the Director of People and on performance from the Assistant Director of Children's Services. In recognition of progress made, the Improvement Plan was refreshed, updated and signed off by the Board in May 2021. It sets out the agenda for the coming year. The Lead Member, Leader, Chief Executive, Corporate Management Team and colleagues in other council teams have continued to support Children's Services in all aspects of the improvement plan and the Lead Member undertakes regular safeguarding visits to families along with the Director to ensure a line of sight into practice. Elected members have also had the opportunity to participate in</p>

STRATEGIC RISK: SR26: NON-DELIVERY OF CHILDREN'S SERVICES IMPROVEMENT**Mitigating Action: SR26.14: Successful delivery of the Improvement Plan**

workshops to improve their understanding of how the service is delivered so that they can provide effective scrutiny, support and challenge.

Senior Leaders, including the Leader, Lead Member, Chief Executive and Director meet regularly with the DfE appointed Improvement Adviser to focus on practice improvement and review findings of all quality assurance activity.

Ofsted suspended their regular programme of quarterly monitoring visits due to Covid19 but have undertaken a Covid19 Assurance visit in May 2021. The report has been published on July 8th. Feedback acknowledged progress and no child was found to be unsafe. Medway was found to know itself well and understand priorities for ongoing improvement work.

The service has continued to seek external support for its improvement work, from Essex as our DfE funded Partner in Practice and from other externally commissioned reviews across all service areas.

The Child Friendly Medway Board has been set up, chaired by the Chief Executive, and a consultation exercise with children and young people in Medway is currently underway to explore what actions are seen as a priority to improve their experience of living in Medway.

This work will benefit all children but must have a particular focus on the most vulnerable.

STRATEGIC RISK: SR39: FINANCIAL PRESSURES ON SEN BUDGETS			
RISK OWNER: DIRECTOR OF PEOPLE			
PORTFOLIO CHILDREN'S SERVICES			
Current Residual Risk Score BII (Likelihood – high. Impact – major)			
<p>The number of Education and Health Care Plans (EHCPs) has been rising over time (42% since 2015). Medway has a higher rate of EHCP per 10k than national in all age groups. The increase in numbers and complexity of need continues to be a pressure on the council with the budgets currently excessively overspent. The council has submitted a budget recovery plan to rectify, and meetings are set up with the Education and Skills Funding Agency (ESFA) to review.</p> <p>The current benchmarking statistics for rate of EHCPs per 10,000 0-25 population are</p>			
Area	2020	2021	% change
Medway	252	275.2	9.2%
SE Region	240.2	264.4	10.1%
England	222.8	246	10.4%
<p>Conclusion: Medway is still higher than National and is higher than last year but the percentage growth is lower.</p>			
Inherent Risk Score BII			
<p>Pressures from increasing demand and complexity of special educational need and disability place extreme financial pressure on the High Needs Budget, which could result in us not meeting our statutory educational duties for children and young people aged 0-25 who have Special Educational Needs and Disabilities (SEND).</p>			
Target Residual Risk Score DIII			
<p>Increased funding from central government will work towards removing the risk to vulnerable children and young people with SEND. A review is currently taking place.</p>			
Trigger			
<p>The council does not receive enough High Needs Budget to match increasing demand and complexity of need.</p>			
Consequence			
<ul style="list-style-type: none"> • Unable to provide our statutory education duties for children and young people aged 0-25 who have SEND. • Poorer outcomes for children and young people. 			

STRATEGIC RISK: SR39: FINANCIAL PRESSURES ON SEN BUDGETS

- Budget pressures with consequences across the council.
- Impact on regulatory judgement.
- Money drawn from other services.
- Cost spiral.
- Adverse effect on staff morale affected.

Opportunities and the way forward

The recovery plan is in place but will take a decade for the council to achieve break-even, and that depends on all workstreams being 100% successful. We need to keep pressing the Department for Education (DfE) / ESFA for the level of financial support made available to the five Local Authorities (Las) already awarded emergency High Needs Budget (HNB) recovery funding.

STRATEGIC RISK: SR39: FINANCIAL PRESSURES ON SEN BUDGETS

Mitigating Action: SR39.01: SEN budgets are being closely monitored and spend is being reviewed more robustly.

Lead Officer: Assistant Director Education and SEND. Head of Integrated Disability

Desired Outcome: Expected Output

Successful management of the budget.

Progress update June 2021

All special school expansions are funded (by council capital budgets and the DfE free schools programme). Discussions continue with academy, and maintained, schools to take forward capital works for 175 extra resourced places, and there is the potential for the £2.5m capital budget to be supplemented by the newly announced Special Educational Needs (SEN) capital allocation by the DfE of £1.7m (to be confirmed), provided there is agreement to allocate the funding to the resourced programme.

In addition, at a meeting with the ESFA on 9 April 2021, to discuss the council's recovery plan, council officers raised the issue of extra HNB funding. This is in the context of five councils being allocated £90m of additional funding by the DfE. While DfE officers would not formally discuss the matter with the Local Authority (LA), Medway's Chief Finance Officer (CFO) pressed the issue in very assertive terms. We have, since the meeting, informed local Members of Parliament (MPs) about the HNB deficit, the reasons for it, and the support allocated to the five LAs mentioned above. MPs asked for a briefing, stating their intention to lobby government ministers about the matter. The briefing has been written and sent to them.

STRATEGIC RISK: SR03B: FINANCES
RISK OWNER: CHIEF FINANCE OFFICER
PORTFOLIO: LEADER
Current Residual Risk Score AI (Likelihood – very high. Impact – catastrophic)
<p>Demographic pressures in adult social care, children’s care and Special Educational Needs and Disabilities (SEND) remain a significant issue, but this has been further exacerbated by the impact of the Covid19 pandemic. The government has moved swiftly to address the in-year pressures, both in terms of direct expenditure and losses of income, but it is still not certain that this will be enough. It has also put in place a generous package of support for businesses and vulnerable people, which for now has insulated the economy from the worst effects – business failure and unemployment. The local government settlement confirmed earlier this year identified the resources available to local authorities, including further funding to address the continued impact of the pandemic in the 2021/22 financial year. Other than this, a major part of the increase in the council’s spending power came in the form of additional flexibility to raise additional council tax, through another round of the so-called ‘adult social care precept’. The view across the sector, particularly upper tier authorities, is that the funding is still insufficient, and like Medway, many authorities have been compelled to call upon reserves to balance their 2021/22 budgets, with some continuing to highlight the risk of Section 114 notices. Against this challenging backdrop the residual risk remains at AI.</p>
Inherent Risk Score AI
<p>There continues to be a major risk over the council’s ability to deliver a balanced budget, whilst at the same time delivering good quality services to the people of Medway.</p> <p>The move away from central support from government and greater reliance on local taxation through council tax and retained business rates, whilst providing local authorities with the opportunity to benefit directly from growth, also brings with it significant risks to overall funding. The government’s continued reliance on one-year settlements only serves to exacerbate the uncertainty.</p>
Target Residual Risk Score CIII
<p>The objective of the medium-term planning process is to forecast the budget ‘gap’ over a number of years, taking into account assumptions around demographic, inflationary and other pressures and projecting forward the future funding from council tax, business rates and government grants.</p> <p>Ultimately the aim would be to get to a position where the Medium Term Financial Strategy (MTFS), through robust strategic plans, presents a balanced budget year-on-year, protecting and increasing reserves and providing assurance to the council that its financial position is secure and sustainable.</p> <p>There will always however be a significant residual risk, as the MTFS is based upon uncertain assumptions in respect of the council’s tax base, the government’s finances, demographic pressures, inflation, interest rates and the economic climate.</p>

Trigger

The years of austerity and annual reductions in central support from government, allied to the capping of council tax increases and the introduction of the business rate retention scheme. Allied with the demographic pressures in both adult social care and children's care, pressures in relation to homelessness and pressures on pay and prices, not least the national living wage, the outlook for local authority finance remains challenging, exacerbated by the impact of the Covid19 pandemic.

Consequence

- Very difficult decisions around funding allocation.
- Service cuts.
- Quality of service compromised.
- Cutback in staffing within an already lean organisation.
- Qualified Value for Money (VFM) judgement by the external auditor.
- Negative local publicity.
- Damage to reputation.

Opportunities and the way forward

The key to improving the effectiveness of the council's financial planning and management is to address the uncertainty around future funding and improve the forecasting of cost pressures. The failure of central government to articulate how it intends to ensure the sustainability of local government has made this task virtually impossible, however the Finance Management team continue to work closely with colleagues within the Planning and Regeneration teams with a view to more accurately projecting future council tax and business rates. The Covid19 pandemic is likely to cause far-reaching impacts, not least on the council's financial sustainability, and has exacerbated how challenging it is to project future resources. However it has also offered an opportunity and impetus to review the types of services we offer and the way we provide them.

Finally, the Medium-Term Financial Strategy has, as its theme, financial resilience and sustainability, with a clear focus on managing and rebuilding reserves.

STRATEGIC RISK: SR03B: FINANCES

Mitigating Action: SR03B.01: Need to ensure effective response to the spending review, but also lobbying for greater local powers to raise revenues

Lead Officer: Chief Finance Officer

Desired Outcome: Expected Output

Co-ordinate responses with members, brief Members of Parliament (MPs), agree a media campaign, and solicit support from peer authorities / partnerships.

Unmodified VFM opinion in respect of the adequacy of financial planning and effective budgetary control.

Increased devolution of tax raising powers to the council.

STRATEGIC RISK: SR03B: FINANCES

Mitigating Action: SR03B.01: Need to ensure effective response to the spending review, but also lobbying for greater local powers to raise revenues

The Covid19 crisis has made meaningful longer-term planning impossible and so the sector continues to lobby for a meaningful long term spending review. Alas, the sector is expecting to see a continuation of single year settlements for some time yet.

Progress update July 2021

In February 2021 alongside colleagues from finance teams across Kent, the Chief Finance Officer met with the Director of Local Government Finance at the Ministry of Homes, Communities and Local Government and representatives from both his department and the department of Business, Energy and Industrial Strategy and made representations for both improved funding of recognised pressures, and for more stability in the future funding of local authorities to enable better planning.

Unfortunately, the indications are that local government will again receive a one-year settlement for 2022/23 and that it can expect at best a flat cash settlement. The extension and continuation of ongoing support in response the impact of the pandemic is welcome, but the piecemeal way it has been managed and extremely short-term nature of the funding does not support robust financial planning over the medium- and longer-term.

STRATEGIC RISK: SR03B: FINANCES

Mitigating Action: SR03B.02: Align priorities and activity of the council to resource availability through the MTFS process

Lead Officer: Corporate Management Team

Desired Outcome: Expected Output

Robust financial planning and management, ensuring financial risks are identified and managed effectively.

Identification and delivery of a range of savings and income generating initiatives.

Co-ordinate responses with members, agree a media campaign, solicit support from peer authorities.

Balanced budget with resources aligned to priorities, delivery of VFM and savings to ensure financial sustainability in the medium-term.

Unqualified VFM Judgement - adequacy of financial planning, effective budget control, balanced budget and adequacy of reserves.

Milestones

Medium Term Financial Strategy in November.

Capital and Revenue budget agreed by council in February.

Progress update July 2021

The Head of Finance Strategy and Head of Business Change have largely concluded their initial round of budget meetings with other heads of service and this process has helped to manage expectations around the budget and identify a range of opportunities to reduce expenditure. An updated transformation programme will be presented to Transformation Board at the end of July. The MTFS and Capital

STRATEGIC RISK: SR03B: FINANCES**Mitigating Action: SR03B.02:** Align priorities and activity of the council to resource availability through the MTFS process

Strategy will be presented to the Cabinet in September 2021.

STRATEGIC RISK: SR03B: FINANCES**Mitigating Action: SR03B.03:** Create resources for investment priorities**Lead Officer:** Corporate Management Team**Desired Outcome: Expected Output**

Track funding opportunities.

Maximise capital receipts on asset disposal.

Prudential borrowing.

Revenue returns from investments and capital assets and appreciation in capital asset values.

Progress update July 2021

The council's current capital programme includes the use of £3.275m of capital receipts to fund continuation of our transformation programme. In addition to this, officers have been very proactive in bidding for a range of grants made available by the government in seeking to ensure that the country recovers from the pandemic. In addition to the successful bids for the Housing Infrastructure Fund, Future High Streets Fund and successive rounds of the Local Growth Fund via the Local Enterprise Partnership, officers have also submitted bids to the Levelling Up Fund and worked with partners on Community Resilience Fund bids.

STRATEGIC RISK: SR03B: FINANCES**Mitigating Action: SR03B.04:** Delivery of digital transformation programme**Lead Officer:** Transformation Board**Desired Outcome: Expected Output**

Development of high-quality digital services.

Delivery of efficiency savings through enhanced processes.

High quality digital services and reduced service delivery cost.

Improved value for money in the delivery of council services.

STRATEGIC RISK: SR03B: FINANCES**Mitigating Action: SR03B.04:** Delivery of digital transformation programme**Progress update April 2021**

A revised list of priority areas for Business Change projects was presented to Corporate Management Team (CMT) / Cabinet on 29 March 2021 by the Chief Finance Officer (CFO), which will focus on addressing the potential budget gap in 2022/23. The following areas have been identified:

- **MTFS Review** – The Finance Strategy and Business Change teams will meet with all service managers to understand potential pressures and identify opportunities for reducing / removing them prior to being added to the MTFS for 2022/23.
- **Commissioning & Procurement** – The processes for commissioning and procurement will be reviewed and clearly defined to focus on reducing the placement costs across Children’s and Adults’ Social Care.
- **Data** – A programme of work is underway to transform Medway into a “data led” organisation. A pilot project implementing a “data lake” has been completed and a corporate data review has been commissioned for Q1 2021.
- **Adult Social Care Transformation & Improvement Programme** – A programme of projects specifically focused on Adult Social Care is being developed by the Business Change team in partnership with the service. Extensive engagement with staff was carried out in March 2021 and the detailed programme will be presented to Transformation Board in May 2021.
- **Review of Discretionary Services** – The Business Change team will continually audit the discretionary services currently offered by Medway Council to evaluate whether they should be continued or delivered differently.
- **Building Rationalisation & Asset Maximisation** – Projects to reduce the office footprint at Gun Wharf are currently underway, which will provide the opportunity to reduce costs (by reducing the number of separate leased buildings) and potentially generate income from leasing out areas of the building.
- **Climate Change** – The transformation programme is closely linked to the Council’s Climate Change Action Plan, with the Business Change team leading a range of projects to implement electric vehicles and charging infrastructure, reduce staff travel and reduce printing through digital transformation.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**RISK OWNER: ASSISTANT DIRECTOR REGENERATION (RECOVERY LEAD OFFICER FOR MEDWAY COUNCIL)****PORTFOLIO: LEADER****Current Residual Risk Score BII (Likelihood – high. Impact – major)**

While in many services the council is still in response, focus is shifting towards an effective recovery. Strategic Planning is one of the three key workstreams in the council's Strategic Recovery Plan, with a multi-agency cell for Medway's Economy and Infrastructure established and working closely with the Kent Resilience Forum equivalent.

The council is delivering direct support for individuals and businesses as funded by the government and continues to review delivery of core services where they can be of benefit to supporting the wider economy.

The council continues to lobby the government for further support for local authorities, individuals, and businesses.

Inherent Risk Score BII

Mandatory closures and ongoing social distancing requirements have created an exceptionally challenging trading environment, resulting in significantly reduced trade, business failure, rising unemployment and reduced levels of disposable income.

The Ministry of Housing, Communities & Local Government (MHCLG) stated throughout Covid19 that they will support local authorities to deliver an effective response to Covid19 and continue to provide core services and substantial packages of support for individuals, businesses and the public sector but may not continue such funding throughout the recovery. Income from Business Rates is a fundamental income stream to Medway Council; businesses' failure to pay, or business collapse leaving void properties may significantly reduce income available for the council, hampering its ability to deliver core services and support the wider economy successfully.

There is a risk of further outbreaks, which the government has handed powers to manage to local authorities. The council has developed a Local Outbreak Plan that may have to be mobilised and doing so would undoubtedly further impact on the Medway Economy.

Target Residual Risk Score CII

The risk of further waves, or prolonged local lockdown and the resultant adverse impact on Medway's economy cannot be avoided, rather the council's action plan is designed to support the economy through any such measures and to improve long term resilience and business growth.

Trigger

On 23 March 2020 the Prime Minister announced the start of the first national lockdown. In early November 2020 a further national lockdown joined the Tier system (introduced in October) in increasing, rather than reducing restrictions. On 3 December 2020, Medway entered Tier 3 – the highest level of restriction outside of national lockdown. Due to the spread of Covid19, all non-essential shops and businesses were ordered to close to the public. In January 2021, the start of the third national lockdown was announced, and from 8 March 2021 we have been following a roadmap to recovery, starting with the re-opening of schools and followed by a series of re-opening dates at five-week intervals in April, May and June 2021, enabling greater access to non-essential services, whilst maintaining a watching brief on the emerging picture as lockdown is eased.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19

Consequence

The Economy and Infrastructure Recovery Cell has produced an impact assessment outlining the main consequences of Covid19. 24 impact areas have been identified and some of the most acute include:

- A significant rise in unemployment with a disproportionate effect on young people, part-time and entry level roles, and those with insecure contracts, women, and people in Black and Minority Ethnic (BAME) communities.
- Decreased apprenticeship vacancies and industrial placements.
- Reduced strength of Medway's business base.
- Accelerated decline of town centres and street markets.
- Impact on supply chains.
- Decreased relevance of Medway Council's strategic bases.
- Digital inclusion / exclusion.
- Sustainability of higher and further education, and its impact on place.

Whilst the majority of the impact areas present risks to mitigate, there are some opportunities to be seized, as outlined below.

Opportunities and the way forward

- Commercial moves out of London – Medway as an attractive place to locate and do business.
- Rise in working from home / associated decline in commuting means residents spend more leisure and social time and money locally.
- Innovation Park Medway (IPM) plans reshaped to support the post-Covid19 economy.
- Opportunity to significantly advance digital inclusion for workers, learners and service users across Medway.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19

Mitigating Action: SR46.01: Multi-agency Economy Cell and Infrastructure for Recovery established including liaison with the Kent Resilience Forum Economic Recovery Cell

Lead Officer: Assistant Director Regeneration

Desired Outcome: Expected Output

Ensure Medway economy's objectives are adequately reflected at Kent and National level through the Kent Resilience Forum (KRF).
Oversee an effective multi-agency recovery plan for Medway.

Progress update July 2021

Reviewed but no update required this quarter.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19

Mitigating Action: SR46.01: Multi-agency Economy Cell and Infrastructure for Recovery established including liaison with the Kent Resilience Forum Economic Recovery Cell

Progress update March 2021

The Economy and Infrastructure Recovery Cell continues to meet regularly with a wide membership base, as do its two sub-groups (Commercial Moves from London, and Digital Inclusion). It maintains an Impact Assessment and Action Plan and is now in the process of discharging actions to lead agencies, with 22 of the identified 24 impact areas discharged. The Cell receives regular updates on these impact areas.

The Cell is now focusing on mainstreaming recovery and a managed exit from its current recovery-based responsibilities. This included an interim review of its Terms of Reference in February 2021.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19

Mitigating Action: SR46.02: Delivery of government-directed financial support to businesses and individuals

Lead Officer: Chief Finance Officer

Desired Outcome: Expected Output

Support businesses to remain economically viable to reduce the number of business failures in Medway.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update April 2021

Since the beginning of the Covid19 restrictions, the council has delivered the following support to businesses (as at 19 March 2021):

- Expanded Business Rates Retail relief of £34.193m.
- Small Business grants of £22.020m.
- Retail, hospitality and leisure grants of £14.095m.
- Discretionary grants of £1.848m.
- Local Restrictions Grant (Closed) Addendum scheme (Lockdown 2) of £1.895m.
- Local Restrictions Support Grant (Sectors) of £1,517.
- Local Restrictions Support Grant (Closed) - Post 2 December 2020 of £393,287.
- Local Restrictions Support Grant (Closed) addendum - Tier 4 of £1.077m.
- Local Restrictions Support Grant (Closed) addendum - Post 5 January 2021 of £2.834m.
- Closed Businesses Lockdown Payment of £5.667m.
- Christmas Support Payment for wet-led pubs of £69,000.
- Additional Restrictions Grant of £138,068.

We have therefore distributed more than £84m in financial support to businesses to date. Work to implement the latest round of

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.02:** Delivery of government-directed financial support to businesses and individuals

government support for businesses through the Restart Grant Scheme is underway, incorporating guidance required to do so published on 14 April 2021.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.03:** Reopening High Streets Safely**Lead Officer:** AD Culture & Community Assistant Director Regeneration, Assistant Director Frontline Services**Desired Outcome: Expected Output**

To support businesses in town centres to implement adequate social distancing measures to enable re-opening.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update April 2021

The restarting and reopening of council services, facilities and buildings plus the reopening of non-essential retail and hospitality on 12 April was overseen by Tactical Command (SILVER). Operational groups were established to plan and manage the activities to ensure that all necessary actions were meticulously planned and executed. Collaborative work was planned with the Police. Communication messages were in place on all mediums.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.04:** Supporting Medway's businesses**Lead Officer:** AD Culture & Community Assistant Director Regeneration**Desired Outcome: Expected Output**

To encourage and help facilitate the growth of businesses in Medway.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update March 2021

The council continues to contract Locate in Kent who have adjusted their working practices to support those businesses that have been adversely affected by Covid19 and encourage continued inward investment from businesses outside Medway. The Kent and Medway Growth Hub (led by Kent Invicta Chamber of Commerce) have introduced a Covid19 Business Advice line by phone and Webchat.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.04: Supporting Medway's businesses**

Rent deferrals were agreed for businesses in council-owned workspaces including the Innovation Centre Medway (ICM) and the Pentagon Centre and are now being reclaimed over the next 12 months.

The council have developed a policy for the Additional Restrictions Grant (ARG) to support businesses during national lockdown. The ARG grant application, assessment and monitoring process was developed and launched in November 2020 to support businesses that were impacted by the 5 November to 2 December 2020 national lockdown. ARG2 was launched in January 2021 to respond to the third national lockdown. The take-up of grants has been slow and to date just over £500k has been granted to support businesses. Additional work needs to be undertaken to determine and develop the business support element of the ARG policy. Due to limited Economic Development (ED) resources, there is a lack of capacity to undertake the majority of the ED workstreams and an on-going list of those affected is being maintained and reported to the Assistant Director (AD) / Director since November 2020. A request for additional posts to support the ARG programme delivery and to scope and procure the ARG Business Support programme has been made to help alleviate the current significant resourcing pressures and impact on the delivery of the ED function.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.05: Supporting residents' skills and employability**

Lead Officer: AD Culture & Community Assistant Director Regeneration

Desired Outcome: Expected Output

Increasing high value businesses, high quality employment and creating jobs and inward investment.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update March 2021

The majority of Skills & Employability projects have resumed, notably the Supported Employment Programme in August and Apprenticeship Advice Service in September, 2020. The Scaffolding project has received a funding extension and will be delivered in 2021. Medway are heavily involved in the Kent and Medway Employment Taskforce which is responding to a growing employment crisis. The Taskforce action plan has been signed off and delivered against.

To date, as part of the Taskforce action plan, Kickstart is being promoted and coordinated; lobbying letters have been sent to government, encouraging the flexible use of the Adult Education Budget and an event encouraging businesses to use their apprenticeship levy was held recently in Medway.

Medway Council has led by example taking on Kickstart placements. 50 vacancies have been created, with 37 advertised in the first tranche. The placements and wrap-around support are being delivered in partnership with Human Resources (HR) and Medway Adult Education.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.05:** Supporting residents' skills and employability

The Skills & Employability plan will be reviewed in light of Covid19, when data from the ending of furlough can be analysed.

Medway Adult Education has remained operating during lockdown, by delivering online. It is scheduled to reopen on 6 April. Online learning continues to be well received, and the programme for 2021/22 will incorporate both online and face-to-face learning.

The redevelopment of Britton Farm Mall into a new Skills, Employment & Learning Hub continues to progress well and is on schedule.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.06:** Review Medway Council's Strategy base, and resultant regeneration and other programmes to ensure clarity of focus on delivery of economic growth**Lead Officer:** Corporate Management Team**Desired Outcome: Expected Output**

Effective focus of council resources and activities that support the delivery of economic growth in Medway.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update December 2020

Work is ongoing within Medway's Economy and Infrastructure Recovery Cell and its Kent counterpart to establish a rounded understanding of recovery requirements, including the establishment of an evidence base (due to be updated in early 2021). This will be reflected in the forthcoming update to Medway 2035 (working title *Medway 2037*).

Consultants SQW, in partnership with Oxford Innovation, were commissioned to review proposals for the Gateway Building at IPM in the light of Covid19, to ensure they remain appropriate for the next economic context. The outline findings are that the Gateway Building and wider IPM will be a useful tool in Medway's economic recovery. A series of recommendations were made and are being implemented.

We remain in regular dialogue with the South East Local Enterprise Partnership (SELEP) regarding the impact of Covid19 on Medway's £40m programme of Local Growth Fund (LGF) and Growing Places Fund (GPF) investment, with no major impediments to delivery identified to date.

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.07:** Continue to lobby government to maximise support and opportunities for Medway**Lead Officer:** Corporate Management Team**Desired Outcome: Expected Output**

STRATEGIC RISK: SR46: MEDWAY'S ECONOMIC RECOVERY FROM COVID19**Mitigating Action: SR46.07:** Continue to lobby government to maximise support and opportunities for Medway

Sustainable funding for Medway Council and an improved business rates regime to support businesses.

Progress update April 2021

In February 2021 alongside colleagues from finance teams across Kent, the Chief Finance Officer met with the Director of Local Government Finance at the Ministry of Homes, Communities and Local Government and representatives from both his department and the department of Business, Energy and Industrial Strategy and made representations for both improved funding of recognised pressures, and for more stability in the future funding of local authorities to enable better planning.

STRATEGIC RISK: SR32: DATA AND INFORMATION
RISK OWNER: CHIEF LEGAL FINANCE OFFICER
PORTFOLIO: RESOURCES
<p>Current Residual Risk Score CII (Likelihood – significant. Impact – major)</p> <p>The council has a Senior Information Risk Officer (SIRO) and a Caldicott Guardian. The council has a Data Protection Officer. The council manages information risk through a Security and Information Governance Group (SIGG). The council has a suite of information governance policies. The council has information sharing agreements and protocols in place. The council has taken part in a “Big Data” project without any risks materialising. The council has a Kent and Medway information sharing agreement. Training to all officers and to Members is being rolled out successfully.</p>
<p>Inherent Risk Score BII</p> <p>Our Transformation Programme involves an increased reliance on digital technology both for customers and the council. This brings with it an increased information risk particularly regarding personal and health data. Conversely, not sharing information with partners and others minimises the council’s ability to improve service delivery and reduce costs. There is also a duty to share information in the interests of client care (Caldicott 2 Report). Local authorities are required to achieve Level 2 on the Information Governance toolkit NHS Data Security and Protection Toolkit annual submission; however, opportunities to improve the council’s position with respect to the IG toolkit requirements submission 2021 have been identified will be identified and an improvement plan developed. Failure to achieve level 2 will mean that Medway Council will lose its trusted partner status with respect to the Kent and Medway information sharing agreement. Greater flexibility for the workforce using digital tools brings risk. Greater availability of information from the council brings risk.</p>
<p>Target Residual Risk Score DIII</p> <p>Human error is completely eradicated from data and information scenarios. Data breaches are very rare and when they occur corrective action is taken quickly, learning implemented and accountability for future improved performance identified. Information sharing is commonplace and well managed.</p>
<p>Trigger</p> <ul style="list-style-type: none"> • Budget pressures.

STRATEGIC RISK: SR32: DATA AND INFORMATION

- The Information Commissioner's Office (ICO) audit reveals areas for improvement.
- Digital Strategy.
- Big Data project with academics.
- Annual information governance toolkit NHS Data Security and Protection Toolkit submission.

Consequence

- Data loss leads to damage to reputation, fines, claims for damages and enforcement notices from the regulator.
- Not achieving cost efficiencies through Digital Strategy changes.
- Failing to achieve Members' expectations.
- Failing to find new innovations.
- Failing to deliver good quality care for residents of Medway.

Opportunities and the way forward

Data and information sharing has been a key part of the pandemic response with partners across the Kent Resilience Forum (KRF).

STRATEGIC RISK: SR32: DATA AND INFORMATION

Mitigating Action: SR32.01: The council has a Senior Information Risk Owner (Chief Legal Officer) and a Caldicott Guardian (Director of People) and in time for the General Data Protection Regulation also a Data Protection Officer (the Information Governance Manager)

Lead Officer: Chief Legal Officer Senior Information Risk Owner (Chief Legal Officer)

Desired Outcome: Expected Output

To ensure that appropriate organisational safeguards are in place for sharing information.

Information governance policies and procedures are available on the intranet.

Privacy Impact Assessments (PIAs).

Data Protection Impact Assessments (DPIAs).

Information Sharing Agreements (ISAs) and Standards Operating Procedures (SOPs) Record of Sharing also exists detailing roles and responsibilities.

Progress update April 2021

Project specific ISAs etc. have continued to be used during the pandemic. Care will be taken as the emergency response starts to diminish and the recovery element increases. Work with partner organisations under the Civil Contingencies Act through the KRF.

STRATEGIC RISK: SR32: DATA AND INFORMATION**Mitigating Action: SR32.03:** Security and Information Governance Group (SIGG)**Lead Officer:** Chief Legal Finance Officer**Desired Outcome: Expected Output**

Providing a corporate overview of all information risk across projects and initiatives.
 Minutes of SIGG meetings attended by representatives from Business Support, Public Health, Regeneration, Culture and Environment (RCE) and Children & Adults (C&A) departments.

Progress update July 2021

Medway Council achieved Level 2 of the NHS Data Security and Protection Toolkit annual submission on 30 June 2021; opportunities to improve the council's position with respect to the toolkit submission 2021 will be identified by members of the SIGG and an improvement plan developed.

The SIGG are overseeing a project to automate Freedom of Information Requests using an online form. This form will also promote the Open Government License for the reuse of council data.

STRATEGIC RISK: SR32: DATA AND INFORMATION**Mitigating Action: SR32.04:** Meetings between Senior Information Risk Officer (SIRO) and Caldicott Guardian on specific risks**Lead Officer:** Senior Information Risk Owner (Chief Legal Officer)

STRATEGIC RISK: SR32: DATA AND INFORMATION

Mitigating Action: SR32.04: Meetings between Senior Information Risk Officer (SIRO) and Caldicott Guardian on specific risks

Desired Outcome: Expected Output

Good regular engagement to discuss risk areas.

DPIAs, ISAs and SOPs ROSSs co-signed where relevant.

Progress update July 2021

Improvement actions from the Caldicott Guardian audit in March 2021 are being progressed. A draft Caldicott Guardian Plan has been developed and circulated to Senior Managers for feedback. Training for appropriate staff has been identified and will be booked imminently.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS
RISK OWNER: CHIEF LEGAL OFFICER CHIEF FINANCE OFFICER
PORTFOLIO: LEADER
Current Residual Risk Score BIII (Likelihood – high. Impact – moderate)
<p>All alternative delivery models are required to produce business cases that are considered by Corporate Management Team and then by Cabinet.</p> <p>The performance of these models is regularly reviewed by Cabinet and scrutinised by the relevant Overview and Scrutiny Committee. Where issues arise, these can also be discussed by Corporate Management Team, where this is a standing agenda item.</p> <p>Underperformance is identified by client-side officers or Members and mitigating action is taken or expected.</p> <p>The effect of the action to date has been to develop a smooth transition and improve working relationships and clarify and confirm savings and consequences.</p>
<p>Inherent Risk Score BII</p> <p>A growing number of council services are operated through alternative delivery models including outsourcing / insourcing, trusts, joint ventures, Local Authority Traded Companies, partnerships and shared services and joint commissioning.</p> <p>The primary driver for entering into such models is typically to reduce costs while protecting service delivery and building resilience. A lack of robust management of these delivery models can lead to underperformance. As a result of more new models, governance arrangements are more complex.</p> <p>Weak or ineffectual oversight / management / monitoring by the council as expertise is transferred to the new delivery model.</p> <p>Failures in governance that expose untreated risk.</p>
<p>Target Residual Risk Score CIII</p> <p>Ultimately as these alternative delivery models embed, the council will be looking for increased revenue income and higher levels of performance.</p>
<p>Trigger</p> <p>Weak options appraisals / businesses cases; opportunities overstated as commercial markets are not realised, and risks understated.</p> <p>Failure to effectively manage (staffing, relationships, agreements / contracts) the transition between the council and the service delivery model.</p> <p>Limited due diligence conducted on new service provider or key individuals in that provider.</p> <p>Weak or unclear agreements / contract and governance arrangements.</p> <p>Failure of a provider, risking failure to deliver services.</p>
<p>Consequence</p> <ul style="list-style-type: none"> • Failure to meet statutory responsibilities to residents.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS

- Unexpected costs from the new delivery model.
- The delivery model is not sustainable; responsibility for delivery of function unexpectedly transfers back to the council.
- Reputation of the council is damaged by activities of the delivery model.
- Council or delivery model expectations not met by new arrangements.
- No option to renegotiate terms if circumstances change.
- Reduced influence / control of the council.
- Delivery model operates at a loss with deficit met from local taxation.

Opportunities and the way forward

A Covid19 lessons learned exercise has been carried out, and this included identifying opportunities for the alternative delivery models.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS

Mitigating Action: SR36.01: Robust options appraisals, and detailed business cases prepared

Lead Officer: Relevant Assistant Director for each Service

Desired Outcome: Expected Output

Ensure effective decision making.

The council only enters into arrangements that are beneficial to the service and/or budget and are sustainable.

Milestones

Cabinet considers all business cases prior to any alternative arrangements being agreed.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update April 2021

A report was provided to Cabinet updating the branding change from Medway Commercial Group (MCG) to Kyndi and providing the latest Business Plan for consideration and approval. A recent Medway Development Company (MDC) report provided Members with a confidential cashflow that indicates the level of risk (and reward) the council as shareholder is taking during the currency of live projects. This was in response to requests from Audit Committee Members.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS
Mitigating Action: SR36.02: Project management approach to implementation
Lead Officer: Relevant Assistant Director for each Service
Desired Outcome: Expected Output Clear agreed milestones for implementation in agreed timescale. Smooth transition into the new delivery model.
Progress update July 2021 The Chief Finance Officer has now taken over the Kyndi client liaison role for the council and has attended his first board meeting. The same is true of MDC with the Assistant Director for Regeneration and Housing Infrastructure Fund (HIF) taking over the liaison role.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS
Mitigating Action: SR36.03: Communication and stakeholder management
Lead Officer: Relevant Assistant Director for each Service
Desired Outcome: Expected Output Stakeholders informed / consulted. Smooth transition into the new delivery model.
Progress update July 2021 Regular Cabinet Reporting, Scrutiny and appropriate communications from both the council as shareholder and the companies on specific projects and initiatives enables good engagement.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS
Mitigating Action: SR36.04: Sound legal and procurement advice on chosen delivery model
Lead Officer: Chief Legal Officer
Desired Outcome: Expected Output Robust agreements / contracts with clarity over responsibilities. Smooth operation of services, and effective dispute resolution.
Progress update July 2021 Legal and procurement advice sometimes commissioned from external experts continues to be taken on all significant transactions.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS
Mitigating Action: SR36.05: Robust scrutiny / oversight mechanisms to ensure clear corporate understanding
Lead Officer: Corporate Management Team
<p>Desired Outcome: Expected Output</p> <p>The delivery model and council are held accountable for quality and cost of service. The council are able to rely on financial information for robust financial planning. High performance. Financial resilience.</p>
<p>Progress update July 2021</p> <p>The regular updates continue to be taken to Cabinet for Medway Norse, Kyndi Ltd and MDC Ltd, comprising a covering report written from the perspective of the council as client and accompanied by a balanced scorecard style report written from the perspective of the company.</p> <p>An assurance report was provided to Audit Committee on 24 June 2021 on how risk is managed between the council and its Local Authority Trading Companies (LATCOs); MDC and Kyndi.</p> <p>Both MDC and Kyndi (the new name of Medway Commercial Group) follow the council's approach to risk management based on best practice industry standards including the International Standard in Risk Management – ISO: 31000:2018(E).</p> <p>To provide Member assurance when Medway LATCOs are held to account in the future and in line with the council's Risk Strategy, all risks above the council's tolerance level of CII (Likelihood Significant and Impact Major) will be presented with treatment actions as part of their reports to Cabinet.</p>

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS

Lead Officer: Relevant Assistant Director for each Service
<p>Desired Outcome: Expected Output</p> <p>Effective performance management. High or improving performance of delivery model.</p>
<p>Progress update July 2021</p> <p>The regular updates continue to be taken to Cabinet for Medway Norse, Kyndi Ltd and MDC Ltd, comprising a covering report written from the perspective of the council as client and accompanied by a balanced scorecard style report written from the perspective of the company.</p> <p>An assurance report was provided to Audit Committee on 24 June 2021 on how risk is managed between the council and its LATCOs,</p>

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS**Mitigating Action: SR36.06:** Reporting from and on delivery models with clear outcomes

MDC and Kyndi.

Both MDC and Kyndi (the new name of Medway Commercial Group) follow the council's approach to risk management based on best practice industry standards including the International Standard in Risk Management – ISO: 31000:2018(E).

To provide Member assurance when Medway LATCOs are held to account in the future and in line with the council's Risk Strategy, all risks above the council's tolerance level of CII (Likelihood Significant and Impact Major) will be presented with treatment actions as part of their reports to Cabinet.

STRATEGIC RISK: SR36: ALTERNATIVE SERVICE DELIVERY MODELS**Mitigating Action: SR36.07:** Business continuity arrangements**Lead Officer:** Chief Finance Officer**Desired Outcome: Expected Output**

The delivery model and council both have clear roles and responsibilities in the event of any business continuity incident to enable continuity of service.

Progress update July 2021

All council companies have continued to trade and provide services through the pandemic. Kyndi has rebranded and provided an updated Business Plan. Medway Norse have excelled in their support to the council's response to the pandemic. MDC have handed over their first completed residential site (White Road) during the last quarter.

STRATEGIC RISK: SR37: CYBER SECURITY
RISK OWNER: CHIEF FINANCE OFFICER
PORTFOLIO: RESOURCES
Current Residual Risk Score CI (Likelihood – significant. Impact – catastrophic)
<p>The council manages cyber security risk, along with general information security risk, by having robust policies and procedures in place. These policies and associated actions are audited internally and externally with the result reported to appropriate council committees. In addition, the council is accredited against the Public Service Network (PSN) code of connection criteria that provides assurances that the ICT infrastructure is managed and monitored using methods commensurate with recognised good practice and the guidance issued by CESG (the UK government's National Technical Authority for Information Assurance).</p> <p>The recent ICT structure has put in place a dedicated ICT Network and Cyber Security Manager. This has ensured that ICT has a senior manager responsible for security who is constantly monitoring the system for potential threats and ensuring PSN compliance. All required certifications / accreditations are in place and being constantly reviewed.</p>
Inherent Risk Score CI
<p>As there are no mitigations that are completely effective against malware infection, we should develop a defence-in-depth strategy for the organisation. This consists of multiple layers of defence with several mitigations at each layer. This will improve resilience against malware without disrupting the productivity of services. These layers will also have multiple opportunities to detect malware, and then stop it before it causes real harm to the organisation. Accepting the fact that some will get through will help plan for the day when an attack is successful, and minimise the damage caused.</p> <p>When building defences against malware, it is recommended that mitigations are developed in each of the following three layers:</p> <p>Layer 1: preventing malicious code from being delivered to devices.</p> <p>Layer 2: preventing malicious code from being executed on devices.</p> <p>Layer 3: increasing resilience to infection, and to enable rapid response should an infection occur.</p>
Target Residual Risk Score CI
<p>The cyber security risk is omnipresent and only by constantly maintaining the information security environment at levels accredited by CESG (PSN CoCo certification) can the council afford a degree of confidence that all that can be done is being done to mitigate this risk. The council needs to consistently complete external auditing and security internal and external penetration testing on an annual basis to keep target residual risk to CI levels.</p> <p>Since all appropriate actions are being taken to maintain cyber security the risk has been managed to as low as possible. However, this will remain on the strategic risk register in view of the inevitability of a cyber-attack.</p>
Trigger
A cyber security incident leading to partial or total loss of system integrity.
Consequence

STRATEGIC RISK: SR37: CYBER SECURITY

- Reduced service delivery across multiple departments over an extended period.
- Data leaks.
- Financial loss.
- Reputational damage.
- Held to Ransom.

Opportunities and the way forward

Work commenced in preparing for the pre-requisites to obtain Cyber Essential Plus accreditation. Due to Covid19 this work has been paused as it is not an essential requirement to obtain this accreditation, however the work in improving cyber security has continued. This position will be reviewed after April 2021.

The ICT Network & Cyber Security Manager has specific responsibilities for the security of the network, overseeing user privileges and security policies, and user education and awareness.

System monitoring software tools are being reviewed to determine whether there are solutions that will further strengthen the cyber security measures already in place.

Endpoint device protection (protecting the end user devices) – areas have been found for improvement to ensure that should an individual's machine be infected with ransomware; the ransomware could potentially manoeuvre laterally within that network segment. Reviews of solutions to address this issue have taken place and some indicative costs have been received. This is to be reflected on ICT's Medium Term Financial Strategy (MTFS) strategy to address how the solution could be funded.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.01: Secure configuration: Remove or disable unnecessary functionality from systems, and to quickly fix known vulnerabilities.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

A Patch Management regime is in place to treat known vulnerabilities.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

PSN submission took place in the first week of July 2021. There was a delay due to implementing resolutions to some of the critical findings by NTA. ICT is awaiting the response from the PSN submissions team.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.02: Network security: Create and implement policies and appropriate architectural and technical responses, thereby reducing the chances of attacks succeeding

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Network policies are in place to prevent attacks.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

PSN submission took place in the first week of July 2021. There was a delay due to implementing resolutions to some of the critical findings by NTA. ICT is awaiting the response from the PSN submissions team.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.03: Managing user privileges: All users should be provided with a reasonable (but minimal) level of system privileges and rights needed for their role. The granting of highly elevated system privileges should be carefully controlled and managed.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

User policies are in place to ensure system privileges meet role requirements.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

During the NTA scan and work with the NCC Group (company appointed by the Ministry of Housing, Communities & Local Government (MHCLG)) we had a review of how those permissions were managed and the recommended changes were implemented.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.04: User education and awareness: Users have a critical role to play in their organisation's security and so it's important that security rules and the technology provided enable users to do their job as well as help keep the organisation secure. This can be supported by a systematic delivery of awareness programmes and training that deliver security expertise as well as helping to establish a security-conscious culture

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Information and cyber security training is available to all system users. Staff induction references cyber security risks and user responsibilities for risk treatment.

Milestones

Certified PSN compliance – May 2021.

Bid for funds against the Local Government Association (LGA) cyber security budget.

Progress update July 2021

Several training courses have been delivered and we are seeing an adoption rate of 26% now. However, we are seeing this figure grow week-on-week. We are expecting this to start entering the 80 percentiles as the courses start to reach the mandatory completion date. Cyber security blogs have been added to Meta Compliance to offer users and members useful information around latest threats and trends.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.05: Incident management: All organisations will experience security incidents at some point. Investment in establishing effective incident management policies and processes will help to improve resilience, support business continuity, improve customer and stakeholder confidence and potentially reduce any impact.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

ICT security policies are in place and regularly reviewed. Any recognised cyber security incident is reported to the appropriate board.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

Some recommendations and adjustments have been recommended by NCC Group. ICT will be working with MHCLG to discuss next

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.05: Incident management: All organisations will experience security incidents at some point. Investment in establishing effective incident management policies and processes will help to improve resilience, support business continuity, improve customer and stakeholder confidence and potentially reduce any impact.

steps to address the recommendations.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.06: Malware prevention: Malicious software, or malware, is an umbrella term to cover any code or content that could have a malicious, undesirable impact on systems. Any exchange of information carries with it a degree of risk that malware might be exchanged, which could seriously impact your systems and services. The risk may be reduced by developing and implementing appropriate anti-malware policies as part of an overall 'defence in depth' approach.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Policies are in place to monitor and capture known malicious code.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

Systems were reviewed in March 2021.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.07: Monitoring: System monitoring provides a capability that aims to detect actual or attempted attacks on systems and business services. Good monitoring is essential in order to effectively respond to attacks. In addition, monitoring allows you to ensure that systems are being used appropriately in accordance with organisational policies. Monitoring is often a key capability needed to comply with legal or regulatory requirements

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Security Incident and event management (SIEM) systems are in place.

Milestones

Certified PSN compliance – May 2021.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.07: Monitoring: System monitoring provides a capability that aims to detect actual or attempted attacks on systems and business services. Good monitoring is essential in order to effectively respond to attacks. In addition, monitoring allows you to ensure that systems are being used appropriately in accordance with organisational policies. Monitoring is often a key capability needed to comply with legal or regulatory requirements

Progress update July 2021

Some recommendations and adjustments have been recommended by NCC Group. ICT will be working with MHCLG to discuss next steps to address the recommendations.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.08: Removable media controls: Removable media provide a common route for the introduction of malware and the accidental or deliberate export of sensitive data. You should be clear about the business need to use removable media and apply appropriate security controls to its use.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Removable media policies are in place with security controls on user devices.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

PSN submission took place in the first week of July 2021. There was a delay due to implementing resolutions to some of the critical findings by NTA. ICT is awaiting the response from the PSN submissions team.

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.09: Home and mobile working: Mobile working and remote system access offers great benefits but exposes new risks that need to be managed. You should establish risk-based policies and procedures that support mobile working or remote access to systems that are applicable to users, as well as service providers. Train users on the secure use of their mobile devices in the environments they are likely to be working in.

Lead Officer: Head of ICT

Desired Outcome: Expected Output

Policies are in place to ensure mobile working devices are managed and monitored for security breaches. Two factor authentication (2FA)

STRATEGIC RISK: SR37: CYBER SECURITY

Mitigating Action: SR37.09: Home and mobile working: Mobile working and remote system access offers great benefits but exposes new risks that need to be managed. You should establish risk-based policies and procedures that support mobile working or remote access to systems that are applicable to users, as well as service providers. Train users on the secure use of their mobile devices in the environments they are likely to be working in.

policies are in place to manage remote access to systems.

Milestones

Certified PSN compliance – May 2021.

Progress update July 2021

PSN submission took place in the first week of July 2021. There was a delay due to implementing resolutions to some of the critical findings by NTA. ICT is awaiting the response from the PSN submissions team.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING
RISK OWNER DIRECTOR OF PLACE AND DEPUTY CHIEF EXECUTIVE
PORTFOLIO: BUSINESS MANAGEMENT (CROSS CUTTING)
<p>Current Residual Risk Score DII (Likelihood – low. Impact – major)</p> <p>The Emergency Plan is subject to rigorous testing on a regular basis both internally and externally with the plan continually refined as a result to meet the ever-changing needs of the council and local area.</p> <p>An annual presentation on Business Continuity is included at a meeting of all council Service Managers.</p> <p>Assistant Directors are responsible for ensuring that the testing of business continuity plans has taken place. Testing to date has been completed during live incidents.</p> <p>The Corporate Business Continuity Plan is currently being refreshed and is aligned to the Emergency Plan.</p>
<p>Inherent Risk Score CI</p> <p>Duties under the Civil Contingencies Act require councils to have an Emergency Plan. The Emergency Management and Response Structure may not be robust enough to respond to a major emergency.</p> <p>Every business activity is at risk of disruption from a variety of threats, which vary in magnitude from catastrophic through to trivial, and include pandemic flu, fire, flood, loss of utility supplies and accidental or malicious damage of assets or resources.</p> <p>The change of council assets / responsibilities going to either commissioned or third-party contractors, Medway Norse or Medway Commercial Group also provides unique challenges to the established roles and responsibilities during planning and response to Emergency Events.</p>
<p>Target Residual Risk Score DII</p> <p>The council will never be able to reduce the risk further as it is impossible to completely mitigate unforeseen adverse events.</p> <p>The council needs to consistently complete hard and soft testing of its business continuity plans to ensure it achieves and maintains the DII risk scoring.</p>
<p>Trigger</p> <p>A significant adverse event occurs, and the council is found wanting or negligent in its planning and/or operational response.</p>
<p>Consequence</p> <ul style="list-style-type: none"> • Response to the event is not rapid, adequate nor effective. • Lack of clear communication lines. • Essential service priorities not clearly understood. • Communication between agencies and the public is poor. • There is a perception by residents that the council does not have a visible presence at the incident. • Residents expect more from their council. • Local press quick to seize issue.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING

- Comparisons made with other local authorities and resilience groups.
- A death, or deaths, in the community.
- Legal challenge under the 'Civil Contingencies Act 2004'.

Opportunities and the way forward

As a result of Covid19 the Corporate Business Continuity Plan and Business Continuity (BC) training will be reviewed to include best practice, lessons learnt, and observations made from the council's response and recovery plans.

Cabinet received a paper on the Council's Covid19 response on 7 July 2020 and Covid19 recovery on 25 August 2020.

Council services refreshed their business continuity plans in October 2020 in preparation for the Covid19 pandemic second wave and EU Exit by 31 December 2021.

Business Support Overview and Scrutiny received a paper on 28 January 2021 on the risk environment to consider the wider risk environment facing the council, including the differences between the Corporate Risk Register, business continuity and emergency planning.

Cabinet and Business Support Overview and Scrutiny received a paper on 30 March 2021 on the council's Covid19 Response and Recovery actions and plans.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING

Mitigating Action: SR02.01: Continued review and develop the Council's Major Emergency Plan (MEP) including any Lessons Identified

Lead Officer: Director of Place

Desired Outcome: Expected Output

Revised plan agreed by Corporate Management Team.

Continued engagement with Kent Resilience Forum.

Staff trained in emergency response management at all levels.

A sustainable and robust on call rota in place at all levels.

Existing plan in place.

Programme of on-going review of Control of Major Accident Hazards (COMAH) plans.

Emergency response operations room in place.

On call rota in place covering all roles and responsibilities 24/7.

Milestones

Draft plan in place.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING

Mitigating Action: SR02.01: Continued review and develop the Council's Major Emergency Plan (MEP) including any Lessons Identified

Call out arrangements in place covering all roles and responsibilities 24/7 (Blue Card) (enhanced during Local Authority (LA) stand down periods).

Reduced relevant staff training during 2020.

Progress update July 2021

The COMAH Plans are being rewritten in line with COMAH Regulations and are looking good for hitting the target of being published in December 2021 with a confirmatory Exercise (Ex Combine 22) taking place end of April 2022.

The Medway Council Major Emergency Plan (MEP) will be reviewed and republished taking in all relevant lessons identified by April 2022. Lessons Identified process has been carried out for the Covid19 First & Second Waves with a separate Identified lessons for Covid19 Lateral Flow Device (LFD) Testing.

As mentioned previously available staff for responding to a Just now incident is a concern; working from home staff have asked to be taken off many Emergency Contacts also. Now a real concern with reference to a large-scale emergency.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING

Mitigating Action: SR02.02: Business continuity plans completed to implement the actions

Lead Officer: Director of Place

Desired Outcome: Expected Output

All services will have an up-to-date and tested Business Continuity Plan.

Business Continuity Management Policy agreed.

Business Continuity Management principles and training provided to divisional management teams across the council is ongoing.

Corporate Recovery Plan in place.

IT Recovery Plan in place.

Milestones

Plans tested.

Business Continuity Audit 2017 actions completed in 2018.

Progress update July 2021

Reviewed but no update required this quarter.

STRATEGIC RISK: SR02: BUSINESS CONTINUITY AND EMERGENCY PLANNING**Mitigating Action: SR02.02:** Business continuity plans completed to implement the actions**Progress update April 2021**

Reviewed. No update required.

Progress update.

A dashboard to monitor the refresh of business continuity plans by April each year is overseen by the Strategic Risk Management Group and reported six monthly to Corporate Management Team as part of the Corporate Risk Register. Assistant Directors are responsible for ensuring that the testing of plans has taken place. An annual presentation on Business Continuity is included at Service Managers' Meeting in September each year. Service Managers are responsible for making staff aware of their Service's Business Continuity Plan and their roles and responsibilities within it. This also forms part of the induction for all new staff.

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19
RISK OWNER: CHIEF FINANCE OFFICER
PORTFOLIO: LEADER
Current Residual Risk Score BII (Likelihood – high. Impact – major)
<p>The government have confirmed that the sales, fees and charges income compensation scheme in operation during 2020/21 will continue in Q1 of 2021/22 and that the government will continue to support local authorities to manage pressures arising from the pandemic in the coming financial year. This compensation scheme requires local authorities to absorb the first 5% of any losses, but then pays 75p for every £1 of income lost. Income losses considered commercial are not covered by the scheme.</p>
<p><u>Threat / Inherent Risk</u></p> <p>Following substantial falls in direct government grants from 2010-11 onwards, locally generated income from sales, fees and charges, and through more commercial investment activity has become a fundamental element of the council's budget.</p> <p>Front line services including leisure, parking and cultural services are budgeted to produce in excess of £13m of revenue income. The council has experienced financial pressures from falling income in recent years, particularly in leisure services following the introduction of budget gyms in the sector whose charging structures are difficult to compete with, and in parking income as shopping and working habits have changed.</p> <p>Medway Council's investment activity is primarily delivered to support the regeneration of the area, while also being budgeted to contribute more than £1m to the council's revenue budget. Regulatory bodies in the sector have highlighted those commercial activities and investments bring exposure to volatility in terms of revenue rental income and on any reductions in asset values on the balance sheet. The council's exposure to investments is limited to property investments, both directly and through managed property funds however where the asset value of managed property funds falls, accounting standards now require any loss to be reflected in the Income & Expenditures (I&E), meaning for Medway this would be a cost to the general fund. A temporary statutory override is currently in place, but this expires at the end of the 2022/23 financial year.</p> <p>The restrictions brought in to control the spread of Covid19, and the resultant economic impact have resulted in significant shortfalls in income across all services throughout 2020/21, along with increased risk around income from property investments.</p>
Inherent Risk Score: AI
Target Residual Risk Score: CII
<p>Trigger</p> <p>Restrictions in place to reduce the spread of Covid19 require the closure of income generating facilities, and/or where facilities are open social distancing measures reduce the number of visitors.</p>

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Events impacting the economy (such as the Covid19 pandemic) may result in business failures, impacting rental income.

The statutory override granted on accounting for property funds ends before the council's property fund investments break even or turn a profit.

Consequence

- Reduction in / loss of rental income creating budget pressures.
- Negative impact on satisfaction ratings, and high levels of complaints.
- Services not provided at an acceptable level / facilities lack investment.
- Accreditation impacts.
- Long-term loss of business.
- Reduction in asset value of managed property funds.
- Criticism from regulatory bodies including external audit.

Opportunities and the way forward

Services are currently prioritising ensuring the safe ongoing / return to operation following the latest restrictions.

STRATEGIC RISK SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.01: Priority is being given to structuring our operations to provide customers with confidence about returning to Covid19 compliant facilities and events. The focus is on restoring income levels in 2021/22 once the current lockdown restrictions are eased. This will require ongoing support from the Communications and Marketing team.

Lead Officer: Assistant Director Culture and Community

Desired Outcome: Expected Output

The outcome from this is dependent on the speed at which the lockdown is eased and consideration of the restrictions that may remain in place throughout 2021/22.

High levels of awareness will be maintained amongst residents about new regulations and service provision as we move out of lockdown.
Milestone: 19th July in response to new government guidance.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update April 2021

Planning for recovery is underway across the service. Phased reopening plans have been developed including for libraries and community hubs, theatres and events and festivals. Reopening to pre-Covid19 levels and therefore income levels is dependent on a combination of government restrictions, public confidence and external commercial operations (e.g. theatre tour promoters).

A suite of marketing recovery campaigns are being developed.

The Sport, Leisure, Tourism, and Heritage service continues to evolve post-lockdown recovery plans. These include adapted activity and event programmes such as online classes, the development of outdoor sporting activities and use of digital media to promote attractions and activities.

A focus needs to be placed on extensive marketing and promotional activity to encourage visitors to return to Medway's heritage attractions and to encourage residents to use Medway's sports centres to improve individual physical activity. This needs to be led by communications and marketing colleagues, ensuring opportunities are maximised at the earliest opportunity post-lockdown.

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.02: Medway's cultural programme and events losses will be minimised by developing new models for delivery.

Lead Officer: Assistant Director Culture & Community

Desired Outcome: Expected Output

At some point in 2021/22 we will be able to deliver an alternative theatre and events programme that is Covid19 compliant.

Milestones

22nd February – new government guidance.

Progress update June 2021

A financial commitment was made to a new alternative Covid19-safe programme of events that will be delivered in line with government guidance in late summer 2021.

If government guidance allows, theatres will reopen its professional theatre programme in mid-September 2021.

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.03: Alternative uses will be identified for leisure centres and car parks during the pandemic e.g. testing centres, vaccination centres etc. to attract income or minimise any additional costs to Medway Council.

Lead Officer: Assistant Director Culture and Community

Desired Outcome: Expected Output

Medway facilities are already being used for alternative purposes and this will continue for the foreseeable future. Milestone: July 2021: Upnor Castle hoping to reopen, and Visitor Information Centre seeking to reopen fully. October 2021 scheduled reopening of Eastgate

House. The Coach park will remain a testing centre for the remainder of the financial year until Covid19 requirements change or facilities can revert to business as usual.

Progress update June 2021

Sports centres returned to operational activities in April 2021, in line with the government roadmap

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.04: In the next financial year, a smart parking pilot will be implemented.

Lead Officer: Assistant Director Frontline Services

Desired Outcome: Expected Output

This will hopefully attract more motorists into the key town centre car parks to pay by card or to take advantage of frictionless options i.e., to set up an account.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update March 2021

Pilot to start April 2021.

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.05: Enhanced promotion of our Front-Line trading services e.g. weddings, green space sports (tennis, pitch and put, football pitches)

Lead Officer: Assistant Director Frontline Services

Desired Outcome: Expected Output

Promotion activity will encourage usage once restrictions are lifted.

People will book and re-book weddings; this shall increase income once restrictions are lifted.

Progress update July 2021

Reviewed but no update required this quarter.

Progress update March 2021

The government's roadmap to the easing of restrictions is gradually providing the council with opportunities to recover their previous revenue position.

Parking – as well as the upgrading of Pay & Display (P&D) machines in all main sites the council is currently rolling out pilots in SMART Parking in four locations. These are aimed at encouraging people to easily pay for parking, extend stays etc. so making it a much nicer experience to visit Medway. The Brook car park has already been refitted with an Automatic Number-Plate Recognition (ANPR) system and is undergoing a refurbishment.

The ability to plan for larger weddings will hopefully encourage bookings. New venues have been licenced including the luxury Vines Hotel in Rochester. It is envisaged that the Princes Hall will also attract smaller wedding parties. The newly refurbished Corn Exchange will also draw people in, and the service is taking part in wedding planning events for that venue.

STRATEGIC RISK: SR49: INCOME REDUCTION DUE TO COVID19

Mitigating Action: SR49.06: Adults' Social Care

Lead Officer: Assistant Director Adult Social Care

Desired Outcome: Expected Output

There is an increase in debt because of social care clients being unable to access bank / post office due to shielding. All debt is recorded and pursued through the Adult Social Care (ASC) debt recovery process. However, debt recovery officers are unable to visit clients to establish repayment plans.

Progress update June 2021

The pandemic has had an impact on debt in ASC, with a significant increase in the amount of debt owed. An action plan has been developed and analysis is being carried out to identify the most appropriate approach of contact, to ensure Care Act compliance is met. The Breathing Space legislation may have an impact on debt collection.

A risk has been raised by Information Governance regarding ASC's current procedure of contacting representatives of deceased clients to pursue debt when those people do not have the appropriate authority. Should the outcome be that we cannot continue with our approach, there is likely to be a significant impact on the collection of debt.
