

# Flexible Use of Capital Receipts Strategy

## Introduction

From 2016/17 Local authorities were given the power to use capital receipts from the disposal of property, plant and equipment assets received in the years in which this flexibility is offered, to spend up to 100% of their fixed asset receipts (excluding Right to Buy receipts) on the revenue costs of reform projects. The flexibility was granted for three financial years to 2018/19, and was then extended for three years from 2019/20 to 2021/22. On 10 February 2021 the government announced a further three year extension from 2022-23 onwards.

This Strategy sets out the intended use of this flexibility at Medway Council and will be updated as part of the annual budget process in coming years.

## Qualifying expenditure

To qualify for this flexibility, expenditure should be forecast to generate ongoing savings to an authority's net service expenditure. Qualifying expenditure is expenditure on any project that is designed to generate ongoing revenue savings in the delivery of public services and/or transform service delivery to reduce costs and/or transform service delivery in a way that reduces costs or demand for services in future years for any of the public sector delivery partners.

Local Authorities may not use their existing stock of capital receipts to finance the revenue costs of reform.

Examples of projects cited in the Government guidance include:

- Sharing back-office and administrative services with one or more other council or public sector bodies;
- Investment in service reform feasibility work, e.g. setting up pilot schemes;
- Funding the cost of service reconfiguration, restructuring or rationalisation (staff or non-staff), where this leads to ongoing efficiency savings or service transformation;
- Driving a digital approach to the delivery of more efficient public services and how the public interacts with constituent authorities where possible;
- Improving systems and processes to tackle fraud and corruption in line with the Local Government Fraud and Corruption Strategy – this could include an element of staff training;
- Setting up commercial or alternative delivery models to deliver services more efficiently and bring in revenue (for example, through selling services to others).

## Medway Council's Strategy for use of funds

Where the Council is looking to capitalise pump priming costs, additional surplus assets may be identified and sold.

The council will have due regard to the requirements to the Prudential Code and the impact on the prudential indicators. Capital receipts from the sale of assets are not built into the Council's current capital programme and so the utilisation of receipts for capital receipts flexibility will not have a detrimental impact on the Council's prudential indicators, as set out in the Council's Treasury Management Strategy.

All schemes which are eventually deemed to qualify under this programme would have the required costs funded through capital receipts rather than revenue funding streams. Approval of projects and allocation of funds arising from the use of flexible capital receipts will be at the discretion of the Section 151 Officer.

### Planned schemes

The Council intends to continue the use capital receipts to fund expenditure in relation to the following projects with allocations made in the 2022/23 continuing to fund the activity in 2023/24:

- The Council's Adult Social Care Transformation and Improvement programme continues in 2022/23 and resources will be funded from capital receipts to support the programme to deliver the £3.052million savings budgeted for next year; and
- The Council's transformation programme was established to deliver service improvements across a wide range of service areas, whilst at the same time seeking to drive out efficiencies. It is planned to fund the Business Change team from the remaining approval of capital receipts for transformation purposes for the 2023/24 financial year.
