SR03B	Finances	AI	<p>There has long been an inherent risk around the council's ability to deliver a balanced budget, however this becomes more challenging every year. The government has failed to address the under-funding of statutory services and it has still not delivered the long-awaited fair funding review, which would see a redistribution of the overall resources in favour of local authorities such as Medway. The government's continued reliance on one-year settlements has increased uncertainty and made medium term planning almost impossible. Demographic pressures in adult social care (ASC), children's care, and Special Educational Needs and Disabilities (SEND) remain the biggest issue, but this has been further exacerbated by the impact and aftermath of Covid19, the 'cost of living crisis' precipitated by the war in Ukraine and rising inflation and interest rates.</p> <p>The Round 2 2023/24 monitoring forecast an overspend of around £12m in the current year, whilst the council's non-earmarked reserves have been reduced to just over £10m. The Draft Budget identified a potential budget gap of c£36m for next year, which was worsened by £1.7m by the Provisional Settlement. If robust and immediate management action is not taken, the current financial position could precipitate a Section 114 report, which could result in intervention by the government.</p>	<p><b>SR03B.01: Need to ensure effective response to the spending review, but also lobbying for greater local powers to raise revenues</b></p> <p>Q4 23/24 UPDATE: In light of the council's financial position, in November 2023 The Chartered Institute of Public Finance and Accountancy (CIPFA) was invited to conduct a Resilience Review. As advised by CIPFA's report, the council wrote to the government in January 2024 requesting Exceptional Financial Support seeking flexibility to increase the council tax above the referendum limit, a capitalisation direction and flexibility to use existing grants to support our improvement programme. On 24 January 2024 officials from the Department for Levelling Up, Housing and Communities (DLUHC) wrote to assure the council that the government would support us to balance the budget, and on 29 February 2024 confirmed that the Minister had agreed in principle to a Capitalisation Direction enabling the council to agree a balanced budget for 2024/25.</p> <p>The council submitted a response to the government consultation on the Local Government Finance Settlement. The Final Settlement was announced on 5 February 2024, and though it confirmed that Medway Council had not been granted flexibility around council tax increases, it did provide a further c£2m of funding for Medway Council, meaning the amount sought through the Capitalisation Direction was reduced to £14.742m.</p> <p>In January 2023 the Council responded in support of a government consultation that proposes to enable councils to use flexibilities around capitalisation such as those granted to Medway through the EFS scheme without the need to approach government in future.</p> <p>Q3 23/24 UPDATE: The Provisional Settlement announced in December 2023 represented a reduction in grant of £1.7m for Medway compared to the Draft Budget projections. The council will respond to the Settlement Consultation advocating for increased funding ahead of the January deadline. The council continues to engage in joint lobbying through peer groups where opportunities arise.</p>	AI	<p>The key to improving the effectiveness of the council's financial planning and management is to address the uncertainty around future funding and improve the forecasting of cost pressures. The failure of central government to articulate how it intends to ensure the sustainability of local government has made this task virtually impossible.</p> <p>The Finance team continues to enhance monitoring around council tax and business rates to enhance the accuracy of budget projections. As we progress towards the 11 March deadline to set the Council Tax and deliver a balanced budget, it will be necessary for Members and Officers to make difficult decisions to prioritise the limited resources available to the delivery of statutory responsibilities and key priorities, and it will be necessary to deliver a robust savings and improvement programme in order to deliver balanced budgets over the medium term.</p>	CIII

				<p><b>SR03B.02: Align priorities and activity of the council to resource availability through the MTFS process</b></p> <p>Q4 23/24 UPDATE: Alongside the budget for 2024/25 considered on 29 February 2024, Full Council approved the Medium Term Financial Projections for the council to 2028/29. Though these indicate it will be necessary to seek a further capitalisation direction from the government to balance the 2025/26 budget, they demonstrate that the council could return to financial sustainability and balance the budget without external support from 2026/27.</p> <p>Q3 23/24 UPDATE: Work to refine the projections in the Draft Budget, and to identify savings and income generation opportunities has continued throughout Q3, with the aim of reducing the pressures in Regeneration, Culture and Environment (RCE) directorate and Business Support Directorate (BSD) to deliver within the 2023/24 budget (except for staff pay) to enable all available resources to be directed to Children and Adults (C&amp;A) directorate.</p> <p><b>SR03B.03: Create resources for investment priorities</b></p> <p>Q4 23/24 UPDATE: The final budget agreed by Full Council for 2024/25 includes significant additional investment to support the council's financial improvement and transformation. This includes almost £5m to increase capacity and skills in ASC, £3m over three years to deliver Medway 2.0 and transformational change and a £1m boost to strategic support services.</p> <p>Q3 23/24 UPDATE: The Capital Strategy 2024/25 published in October 2023 noted that beyond those committed in the existing capital programme, the council is not currently projecting to have any more capital receipts available to fund additional capital investment. However, as part of our programme to address the revenue budget funding gap projected, we are exploring all opportunities to generate additional capital receipts from the disposal of any assets no longer required to deliver the council's services.</p> <p><b>SR03B.04: Delivery of digital transformation programme</b></p> <p>Q4 23/24 UPDATE:</p>

				<p>The budget assumes the delivery of significant savings across the directorates, including £3m investment over three years to deliver £7m of savings through transformation. The Transformation Roadmap will now form an integral part of the wider One Medway Financial Improvement and Transformation Plan. The final plan will be agreed by Corporate Management Team on 3 April 2024 and will be presented to Cabinet on 30 April 2024.</p> <p>Q3 23/24 UPDATE: An approach to the delivery of Medway 2.0 and a Transformation Roadmap have been developed, and were endorsed by the Corporate Management Team (CMT) in October 2023. Once the savings requirement for the budget for 2024/25 is finalised, the final Roadmap will be presented to Cabinet and delivery will be monitored by Business Support and Digital Overview and Scrutiny (O&amp;S) Committee in the year ahead.</p>
