## **Continuation of representations regarding Canterbury Street Food Centre and Supermarket**

The premises are located halfway up Canterbury Street Gillingham near to the junction of Nile Road, an approximate five-minute walk from the High Street. Despite being a very busy road with both vehicle and pedestrian traffic, this section of Canterbury Street and immediate side roads is very much residential consisting predominately of terraced housing. There is a parade of shops further up towards the junction with Rock Avenue with further shops and business premises as you near the High Street in the opposite direction. There are 3 premises from the High Street up to and slightly past the applicant's premises that are already selling off sale alcohol. As Stated, the premises are located just a short distance from a busy town centre and the main High Street. There are a significant number of retail outlets within the town centre and CIP area, many of which already sell alcohol on an off-sale basis.

Gillingham High Street currently forms part of a Cumulative Impact Policy Area (CIP), and the area suffers with a high volume of alcohol related crime, disorder and public nuisance. The Medway Council Cumulative Impact Policy was renewed in 2024 and expires in 2027. The area is also covered by a Public Space Protection Order (PSPO), commonly known as an Alcohol Control Zones, these zones were also renewed recently in 2024. A particular issue in this area relates to antisocial behaviour and street drinking. A street drinker can be defined as the following: "A person who drinks heavily in public places and, at least in the short term, is unable or unwilling to control or stop their drinking, has a history of alcohol misuse and often drinks in groups for companionship. People who are street drinkers are likely to be at increased risk of causing harm to themselves or others and may be involved in antisocial behaviour such as begging, or rowdy drunken behaviour that can be intimidating or even violent". It appears the applicant has failed to acknowledge the existence of the CIP and makes no mention of it in their application. (Details of the CIP are readily available within the Medway Council Statement of Licensing Policy, a document easily and readily available online). It also appears that the applicant has failed to identify or to address how it will assist in dealing with issues such as street drinking or to the other issues identified within the CIP. For example, there is no mention within the application for considerations such as the selling of only low strength beers (under 5.5%) with no single bottle or can sales, a clear glazing policy, alcohol sales being ancillary to a significant purchase of groceries etc. In fact, from reading the licence application there is minimal content on the form with very limited details.

Kent Police are concerned that the granting of an off-licence premises in this residential area could lead to disturbance and or nuisance to residents, negatively impacting those living closest to the premises, as evidenced by a representation brought to our attention by a local member of the public. Kent Police are concerned that the granting of another off-licence in this immediate area, an area that is already populated by many licenced premises, would make alcohol even more widely available and is likely to attract further street drinkers and antisocial behaviour resulting in issues worsening and becoming a greater problem. The selling of alcohol to street drinkers would be considered a failure to promote the licensing objectives of preventing crime and disorder and preventing public nuisance. The town centre areas within the Medway Towns are patrolled by a local beat policing team consisting of dedicated Police Officers for that area. This application has been brought to the attention of officers from that team at Gillingham who are in support of the view that this application should be refused. Tackling street drinking and antisocial behaviour in this area remains a priority and alcohol confiscations and seizures from persons consuming alcohol within this CIP and PSPO area continue to occur on a regular basis. Due to the existence of the CIP, it is the understanding of Kent Police that there is a rebuttable presumption of refusal of the application by

the Authority in all but exceptional circumstances, unless the applicant can demonstrate that the premises would not adversely affect the licensing objectives. Sadly, Kent Police do not believe the proposed conditions offered by the applicant demonstrate exceptional circumstances.

Kent Police are of the opinion that there are no meaningful conditions that can be added to this licence that will ensure that the four licensing objectives are being fully promoted and would ensure that the issues already experienced within this CIP area would not increase.

1) Prevention of Crime and Disorder

High Street Gillingham and the town centre in general is a hot spot area for Kent Police due to the levels of both crime and anti-social behaviour. The applicant has made no mention of localised, geographical crime issues in this area. High Street Gillingham suffers greatly with 'Street Drinkers'. Street Drinkers are persons who tend to be alcohol dependant and will drink alcohol in public. Street drinking and associated antisocial behaviour can impact on people's perception of the physical environment and more importantly their quality of life and safety. Groups of drinkers can sometimes be intimidating and stop people using public spaces or facilities and live in fear of crime. There are multiple locations near to this premises that street drinkers already congregate and consume alcohol. This location is a short walk from such areas, and it is not uncommon for street drinkers to travel such distances to purchase their alcohol, returning and consuming their alcohol.

2) Public Safety

Much of the representations that have been made in respect of the impact on the Licensing Objective of Crime & Disorder can be mirrored under this objective. Any incident of Public Order or Assault has a propensity to have an element of collateral impact on Public Safety. The proposal of another off-licence in this area are likely to add to the issues already mentioned above.

3) Prevention of Public Nuisance Public

Nuisance under the Licensing Act enables the interpretation of nuisance to retain its wider meaning under common law. It therefore retains the breadth and flexibility to take in all the concerns likely to arise from the operation of any premises conducting licensable activities in terms of the impact of nuisance on people living or doing business nearby. Those that engage in antisocial behaviour and crime brought about by excessive uncontrolled consumption of alcohol are a public nuisance.

4) Protection of Children from harm

The protection of children from harm includes protection from moral, psychological and physical harm, therefore this is not just about protecting the children from the inherent harms of alcohol.
