TITLE Medway Local Plan Regulation 18 consultation

DATE 9 May 2024

LEAD OFFICER. Catherine Smith, Head of Planning Policy, RCE

1. Summary description of the proposed change

What is the change to policy / service / new project that is being proposed?
How does it compare with the current situation?

This is a consultation as an interim stage to the preparation of a new Local Plan, that sets planning policy for Medway.

The consultation document seeks views on options for locations and sites for development allocations up to 2041, and proposed policies for managing Medway's growth.

The current Local Plan was adopted in 2003 and needs to be updated to plan for sustainable development in Medway up to 2041.

2. Summary of evidence used to support this assessment

Eg: Feedback from consultation, performance information, service user.

Eg: Comparison of service user profile with Medway Community Profile

The Local Plan draws information from a range of published data sources, and council and wider strategies and reports to identify the characteristics of Medway. This is used to identify issue and needs and set out a policy response, eg types of housing or services needed as Medway's population grows and changes.

Is it likely to:

Adversely impact on one or more of the protected characteristic groups

Advance equality of opportunity for one or more of the protected characteristic groups

Foster good relations between people who share a protected characteristic and those who don't

(insert Yes when there is an impact or No when there isn't)

This consultation seeks input to planning for sustainable development in Medway. The consultation and engagement strategy seeks to reach a range of communities across Medway, including those who are under-represented in planning consultations.
