

Planning Committee

25 September 2024

Report on Section 106 Agreements April to June 2024

Report from: Adam Bryan, Director of Place

Author: Dave Harris, Chief Planning Officer and Rachel Flintoft/Jill King
S106 Officers

Summary

This report informs Members on the amount of Section 106 funding received between April 2024 and June 2024 and sets out what the contributions must be spent on according to the Section 106 agreements. This report is submitted for information to assist the Committee in monitoring the contributions which developers have agreed to as part of new development schemes.

1. Recommendations

- 1.1 The Committee is asked to consider and note the Section 106 funding received, those Section 106 agreements signed during the period April to June 2024 and Habitat Regulations contributions as set out in Appendices 1 to 3.

2. Budget and policy framework

- 2.1 The Cabinet has adopted the Supplementary Planning Document 'Medway Council Guide to Developer Contributions and Obligations 2018', which sets out the Council's S106 requirements for developments of 10 dwellings and above. This report and accompanying appendices list the Section 106 agreements which have been signed in the period April to June 2024 and itemises the obligations covered by these agreements.
- 2.2 Information relating to expenditure of S106 contributions in 2023/2024 will be updated when final accounts have been confirmed for that period.

3. Background

- 3.1 Section 106 of the Town & Country Planning Act 1990 provides that anyone with an interest in land may enter into a planning obligation, which is enforceable by a Local Planning Authority. An obligation may be created by agreement or by the party with an interest in the land making a unilateral undertaking.

3.2 Obligations may:

- Restrict the development or use of land.
- Require operations to be carried out in, on, under or over the land.
- Require the land to be used in any specified way; or
- Require payments to be made to the local planning authority, either in a single sum or periodically.

3.3 A planning obligation may only constitute a reason for granting planning permission if it is:

- Necessary to make the development acceptable in planning terms.
- Directly related to the development.
- Fairly and reasonable related in scale and kind to the development.

3.4 The S106 Officer's responsibilities include:

- Monitoring agreements and their trigger dates to ensure that obligations are adhered to.
- Working with developers and internal services/partners to ensure a coordinated approach.
- Being first point of contact once an agreement is signed.

3.5 The Medway Guide to Developer Contributions and Obligations 2018 was approved at Cabinet on 8 May 2018 for adoption as a Supplementary Planning Document. This Guide sets out Medway Council's S106 requirements for developments of 10 dwellings and above. The Guide is updated on 1 April annually to reflect the increase in costs based on the retail price index.

4. Options

4.1 Not applicable.

5. Advice and analysis

5.1 Although an agreement is signed, it is not a guarantee that the obligations will be delivered. On occasions the approved development is not implemented and therefore no obligations would be delivered.

5.2 CIL Regulations require all planning authorities to publish an Infrastructure Funding Statement (IFS) annually. The IFS provides information on all S106 contributions agreed, received and spent, including the infrastructure/projects these contributions cover.

6. Risk management

6.1 The Section 106 Officer's responsibilities include monitoring developments to ensure that all obligations, including financial contributions, are met. Failure to pay contributions results in benefits to the community being lost. These benefits

include meeting the needs of the new residents regarding educational facilities, open space and play equipment, etc.

- 6.2 Contributions received must also be closely monitored to ensure that contributions are spent within the timescale specified by the agreement. Failure to meet payment deadlines will result in the contribution being returned to the developer/owner with interest at a specified rate (4% over base rate).

7. Consultation

- 7.1 Not applicable.

8. Financial implications

- 8.1 Many of the obligations are financial contributions to services which will support the new development to provide the infrastructure required, for example education, open space, transport, etc.

- 8.2 Service planning can be problematic for say education, where a contribution is expected and school expansion plans are produced, but if the development does not go ahead, it can have repercussions to provision in an area where several expected developments would, between them, fund a new school or expansion of that school.

9. Legal implications

- 9.1 Section 106 agreements are legal documents. Developers are expected to adhere to the obligations but failure to do so can result in enforcement action being taken.
