6. Risk management

6.1. Implementation of a performance management and risk framework allows the Council to evidence how successful it is in achieving against its stated objectives, and for residents it provides genuine accountability on how successfully the Council is administering its resources. The risk of inaccurate data being reported to Members is minimised through authorisation by Directorate and Corporate Management Teams. Assurance can therefore be placed on the accuracy of data used to assess performance. By reporting to Members, the risk of poor performance not being identified or addressed is minimised.

6.2. The Risk Management process helps the Council understand, evaluate, and act on all their risks. It supports effective decision making, identification of priorities and objectives and increases the probability of success by making the most of opportunities and reducing the likelihood of failure.

7. Financial and legal implications

7.1. There are no direct financial and legal implications arising from this report.
