1. Introduction

Medway Council recognises the importance of investing in Learning and Development (L&D) to build a skilled, adaptable, and high-performing workforce. This strategy aligns with the Council's key objectives outlined in the Workforce Strategy (2024-2028) and Recruitment Strategy (2024-2026).

Our primary goal is to foster a culture of continuous learning that supports individual growth and the broader organisational vision. By embedding L&D into daily operations, we ensure that all employees can enhance their skills, contribute effectively, and deliver high-quality services to the residents of Medway.

The L&D Strategy is a core component of Medway Council's strategic framework, supporting the One Medway Council Plan and the Financial Improvement and Transformation Plan (FIT).

We recognise that learning and development takes place at four different levels; individual, team, directorate and organisational. By providing a range of learning opportunities, we ensure our workforce has the right skills to deliver services efficiently and effectively.

This strategy also addresses skills gaps identified through workforce planning and supports the Council's broader goals of service excellence, financial sustainability, and digital transformation.

2. Values and Behaviours

Our vision, priorities and L&D strategy are aligned with our values:

- Proud to be Medway: Taking pride in what we do.
- Caring: Compassionate towards our communities and colleagues.
- Respectful: Thoughtful about Medway's diversity, heritage, and one another.
- Trusted: We do what we say and are accountable.
- Ambitious for Medway: Empowering our colleagues to deliver with integrity.
- Collaborative: Working together One Medway.

3. Budgets and Resources

Medway Council recognises the importance of managing resources effectively. The L&D budget for 2025/26 has been increased by 100% which will help meet some of the demand from service areas and support individuals to develop in their career. Future increases will be aligned to inflation. A proportion of the L&D budget (20%) will be held in reserve at the start each year to support key initiatives arising throughout the year.

4. Medway Council's Approach to Learning and Development

Medway Council recognises the diversity of its workforce. We are committed to creating an inclusive and supportive learning environment where every employee has the opportunity to thrive.

The key objectives of our L&D strategy are:

- To identify skills gaps and build future capabilities
- To enhance employee performance
- To promote a culture of continuous learning and improvement
- To support career progression and succession planning

We will achieve this through:

- Investment in professional qualifications and apprenticeships aligned to role
- An excellent induction programme including 5 days protected time
- Developing our future leaders strategic leadership development programme
- Providing a suite of mandatory/statutory/compliance training, as required by the role.
- Supporting attendance at conferences and networking events
- Offering acting up, coaching and mentoring opportunities
- Embedding MedPay PPP Appraisal process and career discussions
- Providing a range of face-to-face, virtual and e-learning opportunities
- Continuous evaluation of learning

5. Key Responsibilities

Individual: Employees are responsible for identifying their learning and development needs, engaging fully in development activities, sharing learning outcomes, reflecting on learning, maintaining a learning portfolio, and managing work-life balance.

Line Manager: Managers collaborate with staff on development needs, align development to organisational priorities, set clear objectives for learning activities, evaluate learning outcomes, facilitate knowledge sharing, promote reflective practice, ensure compliance with statutory requirements, and maximise team capability.

Organisation: The organisation aligns learning with strategic goals, supports and develops managers, maintains comprehensive records, optimises resources for learning, and ensures equitable distribution of resources.

6. Key Principles

Learning and development should be integral to the planning process at an individual, team, directorate and organisational level (Appendix 2). This will help build a resilient workforce capable of delivering the Council's priorities and preparing the workforce for emerging challenges and opportunities in a changing environment.

Requests for L&D must meet one of the three priorities below -

Priority 1:

Statutory/Compliance/Mandatory requirements.

Priority 2:

Essential training – supports the organisation to deliver against Medway Council's priorities and provides individuals with role critical skills to perform day-to-day tasks.

Priority 3:

Developmental training – supports career growth and succession planning but is not immediately required.

Priority will be given to priorities 1 and 2 first. Priority 3 will be considered in the context of the remaining budget and size of the directorate.

7. Key Priorities

Our Workforce Strategy comprises three key priorities:

The L&D Strategy aligns with each of these three key priorities. The key workforce areas that this strategy will actively support are:

Key Priority 1 – Workforce 2028

- Talent Development and Succession Planning: Build an early talent pipeline by working with the community on work experience, internships and apprenticeships. Embed the nine-box diamond as a talent management tool to help build a pool of staff with potential to grow into future leadership roles.
- **Onboarding and engaging**: Ensure all new employees receive a structured induction programme to support their learning.

Key Priority 2 - Enabling our people to develop

- **Developing Leadership Framework**: Identify and develop a Leadership Framework, linked to behaviours and competencies to ensure consistency and development of our senior leadership team.
- Strengthen line management capability: Continue to review and promote the Complete Medway Manager Programme, focused on enhancing the core competences of managers. Evaluate the impact across the organisation and refine the programme where needed.
- Inclusion, Diversity, and Wellbeing: Promote diversity and inclusion across the organisation, providing equitable access to training and development that encourages all staff to thrive.
- Build our early talent pipeline: Work with schools, colleges and universities to offer work experience, internships and apprenticeships.
- **Digital Transformation and New Learning Methods**: In preparation for Medway 2.0, conduct a skills analysis exercise to meet the changing needs of the Council and the digital environment, aligning budget, upskilling and training appropriately.

Key Priority 3 - Engagement, Reward and Wellbeing

- **Engagement:** Provide line managers with the skills and confidence to engage in career conversations with individuals and offer tailored development plans that align with individual career goals and meet the requirements of career progression frameworks.
- **Reward:** Introduce key performance indicators to measure where apprenticeships, professional qualifications and other learning methods are linked to promotion.
- Wellbeing: Promote and deliver modules on key wellbeing topics such as managing stress, resilience, mental health and emotional intelligence.
 Engage with employee forums and wellbeing champions to identify relevant topics based on staff feedback.

In addition, an overarching action will be to consider climate change in all delivery methods as outlined in the Climate Change Action Plan.

8. Action Plan

The L&D Strategy sets out the strategic direction for Learning and Development across Medway Council for 2025 to 2028 focusing on the three strategic HR priorities.

The action plan sets out the steps necessary to deliver on these priorities and realise the associated outcomes.

The action plan will be reviewed on a quarterly basis. Some of the actions may however require a longer-term focus which will carry forward to the next iteration of the action plan.

9. Evaluation

Medway Council will evaluate the effectiveness of L&D programmes through the following methods:

- Skills gap analysis using evaluation forms to assess whether the training has closed identified gaps.
- Engagement and participation monitoring attendance and completion rates.
- Return on investment (ROI) comparing the cost of training to the benefits gained.
- Performance metrics using KPI's to measure career progression and retention rates.

Appendix 1 - ACTION PLAN

1. Workforce 2028

| No | Action | Outcome | Measure | Responsible Owner | Due Date | | | |
|-----|---|---|---|--|---|--|--|--|
| | Build our early talent pipeline | | | | | | | |
| 1.1 | Build on existing partnerships with schools and local colleges/universities to increase our offer of work experience opportunities and internships. | Aligns with Medway's strategic goals for inclusive growth. | Increase in the number of young people accessing early talent initiatives across the Council. | Learning and Development (Apprenticeships) Resourcing (work experience and internships) | Q4 | | | |
| 1.2 | Deliver training session on nine-box diamond in discussion with the HR Business Partners. | Shared understanding of how to assess employee potential and performance. Aligns with organisational goals (eg. talent development, succession planning) | Training delivered. HR and leadership have a shared understanding and increased confidence in using the model. 20% increase in the use of nine box diamond. | HR Business Partner and Learning and Development | Q1-Q4 On going roll out of training. | | | |
| 1.3 | Implement, promote and support mentoring for staff through the completion of the | Increase in leadership capacity | 5% of staff engaged in mentoring during the first year of roll-out. | Learning and Development | By Q4 develop mentoring | | | |
