6. The Co-ordinating Role of the Business Support and Digital Overview and Scrutiny Committee

6.1. This Committee has the overall responsibility to provide guidance and leadership on the development and co-ordination of the scrutiny function for all Overview and Scrutiny committees, including guidance on priorities for scrutiny activities (Constitution, Chapter 4 – Rules – paragraph 22.2 (xxiii)).

6.2. To assist the Committee in fulfilling this role, it has been agreed that a regular overview of business discussed by the other Overview and Scrutiny committees should be presented at these meetings. Whilst each Overview and Scrutiny committee is able to determine its own work programme, this Committee may wish to comment on common themes and the balance of business being covered by each Committee.

6.3. Medway 2.0 Task Group

6.4. The report and recommendations of the Air Quality, Public Transport and Active Travel Task Group have been reported to both the Regeneration, Culture and Environment & Health and Adult Social Care Overview and Scrutiny Committees this month and will be considered by Cabinet on 18 November 2025 for final consideration and approval. The next scheduled task group is Medway 2.0 and Democratic Services have contacted Group Whips to request nominations from respective groups.

6.5. As per the decision of the Business Support and Digital Overview and Scrutiny Committee (Minute no. 349/2023) the task group will be set up with a membership of 5 Councillors (3 x Labour and Co-operative, 1 x Conservative and 1 x Independent Group Member).

6.6. The Chief Information Officer has prepared the following draft scope for discussion which will be considered at the first meeting of the Task Group.

6.7. **Draft Scope and Objectives**  
The task group will examine the implementation of Medway 2.0 across key workstreams, including Housing and Homelessness, External/Resident-

Facing Processes, Internal/Back Office Processes, Frontline Services, and Data. The group will consider how these workstreams contribute to the Council's strategic objectives, such as improving access to services, increasing efficiency, and supporting early intervention and prevention. The review will also explore how digital innovation, service design, and data integration are being used to deliver a "single view of the resident" and enable more joined-up, responsive services.

#### 6.8. **Key Lines of Enquiry**

Members may wish to focus their enquiries on the following high-level areas:

- **Service Integration and Resident Experience:** How is Medway 2.0 improving the integration of services to provide a seamless experience for residents, particularly those with complex needs? What early evidence is there of improved outcomes or efficiencies from joined-up working and digital innovation?
- **Digital Transformation and Automation:** To what extent are new digital tools (such as AI-powered chatbots, automated case management, and online self-service) reducing demand on traditional channels, improving access, and delivering savings? How are these tools being adopted by staff and residents, and what lessons are being learned?
- **Data and Insight:** How is the Council progressing with the implementation of a modern data infrastructure and the move towards a single corporate data platform? What are the anticipated benefits for decision-making, performance management, and service improvement? How is data being used to support early intervention and prevention?
- **Financial and Organisational Impact:** What savings and efficiencies are being realised through Medway 2.0, and how are these being tracked and reported? How is the programme supporting the Council's medium- and long-term financial resilience, and what risks or barriers have been identified?

6.9. The Committee is requested to note progress made and will be asked to agree the final scope when the initial discussions of the Task Group have been completed.

6.10. Appendix 2 to this report sets out the current work programmes of the other three Overview and Scrutiny committees.
