Summary

The One Medway Council Plan (OMCP) 2024/28 sets out the Council's priorities and the performance indicators used to monitor performance. This report and appendices summarise how we performed in Quarter 2 2025/26 on the delivery of these priorities. This report also presents the Quarter 2 2025/26 review of strategic risks.

2. Budget and policy framework

- 2.1. The One Medway Council Plan (OMCP) 2024/28 was agreed at Full Council on 15 May 2024. It sets out the Council's priorities over the next four years and includes the indicators we will use to track performance. These indicators are refreshed annually, with the last refresh having been agreed at Full Council on 27 February 2025.
- 2.2. Risk management is an integral part of good governance. The Council recognises that it has a responsibility to identify and manage the barriers to achieve its strategic objectives and enhance the value of services it provides to the community.

6. Risk management

- 6.1. Implementation of a performance management and risk framework allows the Council to evidence how successful it is in achieving against its stated objectives, and for residents it provides genuine accountability on how successfully the Council is administering its resources. The risk of inaccurate data being reported to Members is minimised through authorisation by Directorate and Corporate Management Teams. Assurance can therefore be placed on the accuracy of data used to assess performance. By reporting to Members, the risk of poor performance not being identified or addressed is minimised.
- 6.2 The Risk Management process helps the Council understand, evaluate, and act on all their risks. It supports effective decision making, identification of priorities and objectives and increases the probability of success by making the most of opportunities and reducing the likelihood of failure.
- 6.3 The Council's Risk Strategy incorporates and:
- promotes a common understanding of risk.
 - outlines roles and responsibilities across the Council.
 - proposes a methodology that identifies and manages risk in accordance with best practice thereby seeking to prevent injury, damage, and loss.
- 6.4 For the Q2 2025/26, a new process to streamline and centralise the collection of risk updates was introduced. While no changes are proposed to the quarterly reports, this process will allow formal reporting to be complemented with more interactive insights.

7. Financial and Legal implications

- 7.1 There are no direct finance and legal implications rising from this report.
