DATE

LEAD OFFICER.
Andy McNally-Johnson

1. Summary description of the proposed change

What is the change to policy / service / new project that is being proposed?
How does it compare with the current situation?

The Treasury Management Strategy (TMS) is prepared each year to show how the Council will manage its treasury function effectively and in accordance with CIPFA requirements.

The TMS outlines the management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.

The treasury management strategy aims to protect the council from market-related risks by monitoring interest rates and economic indicators.

2. Summary of evidence used to support this assessment

Eg: Feedback from consultation, performance information, service user.

Eg: Comparison of service user profile with Medway Community Profile

A range of information sources is used to inform economic analysis and forecasts.

3. What is the likely impact of the proposed change?

Is it likely to:

Adversely impact on one or more of the protected characteristic groups

Advance equality of opportunity for one or more of the protected characteristic groups

Foster good relations between people who share a protected characteristic and those who don't

(insert Yes when there is an impact or No when there isn't)

5. What actions can be taken to mitigate likely adverse impacts, improve equality of opportunity or foster good relations?

What alternative ways can the Council provide the service?

Are there alternative providers?

Can demand for services be managed differently?

Proceed with the implementation of the Treasury Management Strategy 2026/27.
